SHORT FORM TRADEMARK SECURITY AGREEMENT dated as of September 19, 2023, (this “**Agreement**”), among each of the signatories hereto listed as a Grantor (each, a “**Grantor**” and, collectively, the “**Grantors**”) and GLAS Trust Corporation Limited, as collateral agent for the Secured Parties (in such capacity, the “**Collateral Agent**”).

Reference is made to the Intellectual Property Security Agreement dated as of September 19, 2023, among the Grantors, certain other grantors from time to time party thereto, and the Collateral Agent (as amended, restated, amended and restated, supplemented and/or otherwise modified from time to time the “**IP Security Agreement**”) pursuant to which each of the Grantors (a) granted to the Collateral Agent, its successors and assigns, for the benefit of the Secured Parties, a security interest in the Trademark Collateral (as defined below), and (b) agreed to execute and deliver this Agreement in order to record the security interest granted to the Collateral Agent for the benefit of the Secured Parties with the United States Patent and Trademark Office. Accordingly, the parties hereto agree as follows:

SECTION 1. Terms. Capitalized terms used in this Agreement and not otherwise defined herein have the meanings specified (including by reference) in the IP Security Agreement. The rules of construction specified in Section 1.01(b) of the IP Security Agreement also apply to this Agreement.

SECTION 2. Grant of Security Interest. As security for the payment or performance, as the case may be, in full of the Secured Obligations, each Grantor hereby pledges to the Collateral Agent, its successors and assigns, for the benefit of the Secured Parties, and hereby grants to the Collateral Agent, its successors and assigns, for the benefit of the Secured Parties, a security interest in, all right, title and interest in and to any and all of the following assets and properties now owned or at any time hereafter acquired by such Grantor or in which such Grantor now has or at any time in the future may acquire any right, title or interest (collectively, the “**Trademark Collateral**”):

all of the following now owned or hereafter acquired by such Grantor arising under the laws of the United States: all trademarks, service marks, trade names, domain names, corporate names, company names, business names, fictitious business names, trade styles, trade dress, logos, other source or business identifiers, designs and general indicators of like nature, now existing or hereafter adopted or acquired, all registrations and recordings thereof, and all registration and recording applications filed in connection therewith, including registrations and registration applications in the United States Patent and Trademark Office or any similar offices in any State of the United States, and all extensions or renewals thereof, including those listed on Schedule I, and all goodwill associated with or symbolized by thereby, and all rights to sue at law or inequity for any past, present and future infringement, misappropriation, violation or other impairment thereof, including the right to receive all income, royalties, proceeds and damages, whether now or hereafter due or payable.

SECTION 3. Purpose. This Agreement has been executed and delivered by the Grantors for the purpose of recording the grant of security interest herein with the United States Patent and Trademark Office. The security interests granted to the Collateral Agent herein are granted in furtherance, and not in limitation of, the security interests granted to the Collateral

Agent pursuant to the IP Security Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of the Collateral Agent with respect to the Trademark Collateral are more fully set forth in the IP Security Agreement, the terms and provisions of which are hereby incorporated herein by reference as if fully set forth herein. In the event of any conflict between the terms of this Agreement and the Security Agreement, the terms of the IP Security Agreement shall govern.
