INTELLECTUAL PROPERTY SALE AND PURCHASE AGREEMENT

(DELCAM)

THIS INTELLECTUAL PROPERTY SALE AND PURCHASE AGREEMENT (“Agreement”) is made and entered into effective as of June 27, 2023 at 12:02 a.m. Pacific Daylight Time (the “Effective Time”) by and between:

DELCAM LIMITED, a company organized and existing under the laws of England and Wales (Assignor),

and

AUTODESK, INC., a company organized and existing under the laws of the State of Delaware, U.S.A. (“Assignee”).

(Assignor and Assignee are collectively referred to as the “Parties” and individually referred to as “Party”)

The Parties hereby agree as follows:

Section 1 - Definitions

For purposes of this Agreement, the following terms shall have the meanings set forth below:

1.1 “Affiliate” of a Party shall mean and include any entity or association controlled by, controlling or under common control with such Party. For the purposes of this definition, the term “control” shall mean the ownership of more than fifty percent (50%) of the voting shares in any entity or association.

1.2 “Copyrights” shall mean (a) any rights in original works of authorship fixed in any tangible medium of expression, anywhere in the world and (b) all rights in and to any of the foregoing.

1.3 “Intellectual Property” shall mean any and all Patents, Copyrights, Know-How, Trademarks, inventions, trade secrets, associated business goodwill, and other intellectual and industrial property rights, intangible property rights, customer intangibles, and proprietary rights and any enhancements, improvements, modifications, translations, and adaptations thereof, whether registered or not, and all applications and registrations therefor, which are owned by, licensed to, or otherwise acquired by Assignor as of the Effective Time, including without limitation the registered intellectual property set forth in Exhibit A attached hereto.

1.4 “Know-How” shall mean any and all technical information, clinical information, know-how, processes, procedures, methods, computer programs (in source code and object code form), flow charts, drawings, formulae, specifications, designs, process technology, manufacturing requirements, and quality control standards.

1.5 “Patents” shall mean and include any and all (a) patents, patent applications, and patent disclosures, anywhere in the world, including all related divisions, continuations, continuing prosecution applications, continuations in part, reissues, renewals, reexaminations, and extensions thereof, and (b) all rights in and to any of the foregoing, whether registered or unregistered.

1.6 “Trademarks” shall mean the trademarks, brand names, trade names, service marks, trade dress, domain names, logos, copyrights to logos or pictorial depictions, designs, slogans, and similar designations, anywhere in the world, whether in word mark, stylized or design format, registered or unregistered, together with all goodwill associated therewith, and all applications and registrations therefor.

Section 2 - Sale, Transfer, Conveyance, and Assignment of Intellectual Property

2.1 Transfer of Intellectual Property. Effective as of the Effective Time, Assignor hereby sells, transfers, conveys, assigns and agrees to deliver to Assignee, and Assignee hereby purchases, receives, acquires and accepts from Assignor, absolutely all right, title, and interest in and to the Intellectual Property.

2.2 Beneficial Ownership. If, and to the extent that, as a matter of law in any jurisdiction, ownership, title, or any rights or interest in or to any of the Intellectual Property cannot be transferred or assigned as provided in Section 2.1 hereof (a) Assignor irrevocably agrees to transfer and assign, and hereby transfers and assigns to Assignee all rights (including, without limitation, all economic and commercialization rights) that can be transferred or assigned pursuant to Section 2.1 to the fullest extent permissible, and (b) Assignor hereby grants, in respect of any rights to the Intellectual Property that cannot be transferred and assigned as contemplated by 2.1, an unlimited, exclusive, irrevocable, fully-transferrable, assignable, worldwide, perpetual, royalty-free license to use, exploit and commercialize such Intellectual Property in any manner now known or in the future discovered and for whatever purpose..

2.3 Documents and Instruments. In furtherance of the transactions contemplated by Section 2.1, the Parties agree to execute and deliver all instruments of transfer, conveyance and assignment as, and to the extent, necessary or convenient to evidence the transfer and assignment by Assignor of all of Assignor's rights, title and interest in and to the Intellectual Property. The Parties contemplate that they may enter into one or more additional instruments of transfer with respect to some of the Intellectual Property to be transferred to the extent necessary or convenient to comply with local legal or filing requirements.

2.4 Delivery of Materials. On or promptly after the Effective Time, Assignor shall deliver to Assignee or its designee all tangible embodiments of the Intellectual Property and all records and documentation relating thereto, including but not limited to all files, records, notes and correspondence with respect to the prosecution, registration and maintenance of any Intellectual Property.

2.5 Approvals. The Parties acknowledge and agree that some of the transfers contemplated by this Agreement may not be effected on the Effective Time due to the inability of the Parties to obtain necessary consents or approvals or the inability of the Parties to take certain other actions necessary to effect such transfers. To the extent any transfers contemplated by this Agreement have not been fully effected on the Effective Time, the Parties will cooperate and use commercially reasonable efforts to obtain any necessary consents or approvals or take any other actions necessary to effect such transfers as promptly as practicable following the Effective Time.

2.6 NO REPRESENTATIONS OR WARRANTIES. TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ASSIGNEE ACKNOWLEDGES AND AGREES THAT: (A) ASSIGNOR IS NOT MAKING IN THIS AGREEMENT ANY REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, AS TO THE CONDITION, QUALITY, MERCHANTABILITY, VALIDITY, ENFORCEABILITY OR FITNESS OF ANY INTELLECTUAL PROPERTY; AND (B) ALL SUCH INTELLECTUAL PROPERTY WILL BE TRANSFERRED ON AN "AS IS," "WHERE IS" BASIS.

2.7 Enforcement. The Parties acknowledge and agree that the transfer of the Intellectual Property under Section 2.1 includes the assignment of the right to seek and collect damages and sue for or otherwise enforce past, present and future infringement claims with respect to the Intellectual Property, and to freely control any such lawsuits or settlements of the same.

Section 3 - Consideration

3.1 Consideration. In consideration for the transfer contemplated in Section 2.1, Assignee shall pay to Assignor an appropriate arm's length consideration equal to [REDACTED]

[REDACTED] The Parties acknowledge and agree that it is their intention that the Intellectual Property be transferred, as contemplated in Section 2.1, for its fair market value as of the Effective Time. If at any time after the Effective Time, the Parties determine, or pursuant to a final determination made by any taxing authority it is determined, that the Intellectual Property was not transferred for its fair market value as of the Effective Time, the Parties agree to adjust the Purchase Price to reflect the fair market value of the Intellectual Property as of the Effective Time pursuant to such determination.

3.2 Payment Terms. Payment of the Purchase Price shall be made in cash within ten (10) days of the Effective Time. Unless otherwise agreed between the Parties, the Purchase Price payable hereunder shall be paid in Pound Sterling.

Section 4 - General Provisions

4.1 Further Assurances. The Parties will each perform such acts, execute and deliver such instruments and documents, and do all such other things as may be reasonably necessary to accomplish the transactions contemplated in this Agreement.

4.2 Governing Law. The laws of the State of California, U.S.A., without reference to its principles of conflicts of law, shall govern the construction, interpretation and other matters arising out of or in connection with this Agreement (whether arising in contract, tort, equity or otherwise).

4.3 Severability. If any provision of this Agreement is determined to be invalid, illegal or unenforceable, the remaining provisions of this Agreement shall remain in full force, if the essential terms and conditions of this Agreement for each Party remain valid, binding and enforceable.

4.4 No Waiver. The failure by either Party to assert any of its rights hereunder, shall not be deemed to constitute a waiver by that Party of its right thereafter to enforce each and every provision of this Agreement in accordance with its terms.

4.5 Counterparts. The Parties may execute this Agreement in multiple counterparts, each of which constitutes an original as against the Party that signed it, and all of which together constitute one agreement. The signatures of both Parties need not appear on the same counterpart. The delivery of signed counterparts by facsimile or email transmission that includes a copy of the sending Party's signature is as effective as signing and delivering the counterpart in person.

4.6 Successors and Assigns. This Agreement shall be binding on and inure to the benefit of the Parties, their successors in interest and assigns.

4.7 Authority. Each of the Parties represents to the other that (a) it has the corporate or other requisite power and authority to execute, deliver and perform this Agreement, (b) the execution, delivery and performance of this Agreement has been duly authorized by all necessary corporate or other action, (c) it has duly and validly executed and delivered this Agreement, and (d) this Agreement is a legal, valid and binding obligation, enforceable against it in accordance with its terms, subject to applicable bankruptcy, insolvency, reorganization, moratorium or other similar laws affecting creditors' rights generally and general equity principles.

4.8 Entire Agreement. This Agreement, together with any exhibits and schedules attached hereto, constitutes the final agreement between the Parties with respect to the subject matter contained herein, and is the complete and exclusive statement of the Parties' agreement on the matters contained herein. All prior and contemporaneous negotiations and agreements between the Parties with respect to the matters contained herein are superseded by this Agreement. Notwithstanding the foregoing, the Parties contemplate that they may desire to enter into or execute instruments of various kinds consistent with but in some cases duplicative of this Agreement in order to effect and/or document the transactions contemplated in this Agreement in accordance with Section 2.

[The remainder of this page intentionally left blank]

IN WITNESS WHEREOF, the Parties have caused this Agreement to be executed by their duly authorized and empowered officers and representatives as of the Effective Time.
