INTELLECTUAL PROPERTY SECURITY AGREEMENT

This INTELLECTUAL PROPERTY SECURITY AGREEMENT (“*IP Security Agreement*”), dated as of December 11, 2023, is made by and among **Dorf Ketal Chemicals FZE**, a free zone entity registered with the Fujairah Free Zone Authority with company registration number 2997 and registered address at Warehouse 110B, Fujairah Free Zone 1, Phase 1, PO BOX 50132, Fujairah, United Arab Emirates (the “*Grantor*”) in favor of **HSBC Bank Middle East Limited**, a company limited by shares and existing under the laws of the DIFC in Dubai, the UAE under registered number 2199 with its registered office in the DIFC at Level 4, Gate Precinct Building 2, Dubai International Financial Centre, P.O. Box 30444, Dubai, United Arab Emirates (“**HSBC**”), in its capacity as the security agent (the “*Security Agent*”) for the Secured Parties pursuant to the Facilities Agreement and Security Agreement referred to below. Capitalized terms used herein without definition shall have the meanings provided in the Facilities Agreement or Security Agreement, as applicable.

WHEREAS, the Grantor has entered into a **Facilities Agreement** dated as of January 3, 2023 (the “*Facilities Agreement*”), with HSBC, as Administrative Agent, and the Lenders party thereto.

WHEREAS, as a condition to continued extensions of credit by the Lenders under the Facilities Agreement, Grantor has agreed to execute and deliver this IP Security Agreement for recording with governmental authorities, including, but not limited to, the United States Patent and Trademark Office and the United States Copyright Office.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Grant of Security. To secure the full and timely payment, performance and satisfaction of the Secured Obligations when due, whether at stated maturity, by acceleration or otherwise, Grantor hereby collateral assigns and pledges to the Security Agent, and hereby grants to the Security Agent, for the ratable benefit of the Secured Parties, a continuing security interest in and to all of the right, title, and interest of the Grantor in, to, and under the following, wherever located, whether now owned or existing or hereafter acquired or arising (the “*IP Collateral*”):

(a) the patents and patent applications set forth in Schedule 1 hereto and all reissues, divisions, continuations, continuations-in-part, substitutes, renewals, extensions, and reexaminations thereof and amendments thereto (the “*Patents*”);

(b) the trademark registrations and applications set forth in Schedule 2 hereto, together with the goodwill connected with the use thereof and symbolized thereby, and all extensions and renewals thereof (the “*Trademarks*”), excluding only United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant, attachment, or enforcement of a security interest therein would, under applicable federal law, impair the registrability of such applications or the validity or enforceability of registrations issuing from such applications;

(c) all rights of any kind whatsoever of Grantor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world;

(d) any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(e) any and all claims and causes of action with respect to any of the foregoing, whether occurring before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or default, with the right, but no obligation, to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

This IP Security Agreement constitutes a “security agreement” as defined in Article 9 of the Uniform Commercial Code as from time to time in effect in the State of New York.

2. Recordation. Grantor authorizes the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officials to record and register this IP Security Agreement upon request by the Security Agent.

3. Further Assurances. The Grantor agrees to promptly inform the Security Agent in writing of the acquisition by the Grantor of any application or registration in or to any IP Collateral which is not already described in the Schedules attached hereto, and the Grantor agrees to execute and deliver at its own expense from time to time amendments to this IP Security Agreement or the schedules hereto or additional security agreements or schedules as may be required by the Secured Parties in order that the security interest shall attach to such intellectual property.

4. Loan Documents. This IP Security Agreement has been entered into pursuant to and in conjunction with the Security Agreement, which is hereby incorporated by reference. The provisions of the Security Agreement shall supersede and control over any conflicting or inconsistent provision herein. The rights and remedies of the Security Agent with respect to the IP Collateral are as provided by the Facilities Agreement, the Security Agreement, and related documents, and nothing in this IP Security Agreement shall be deemed to limit such rights and remedies.

5. Execution in Counterparts. This IP Security Agreement may be executed in counterparts (and by different parties hereto in different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page to this IP Security Agreement by facsimile or in electronic (i.e., “pdf” or “tif”) format shall be effective as delivery of a manually executed counterpart of this IP Security Agreement.

6. Successors and Assigns. This IP Security Agreement will be binding on and shall inure to the benefit of the parties hereto and their respective permitted successors and assigns.

7. Governing Law. This IP Security Agreement and any claim, controversy, dispute, or cause of action (whether in contract or tort or otherwise) based upon, arising out of, or relating to this IP Security Agreement and the transactions contemplated hereby and thereby shall be governed by, and construed in accordance with, the laws of the State of New York.

8. Jurisdiction, etc.

(a) Grantor hereby irrevocably and unconditionally submits, for itself and its property, to the non-exclusive jurisdiction of any New York State court in the Borough of Manhattan, City of New York, the Courts of the United States for the Southern District of New York and any appellate court from any thereof, in any action or proceeding arising out of or relating to this IP Security Agreement, or for recognition or enforcement of any judgment, and each of the parties hereto hereby irrevocably and unconditionally agrees that all claims in respect of any such action or proceeding may be heard and determined in any such New York State court or, to the fullest extent permitted by law, in such Federal court. Each of the parties hereto agrees that a final judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. Nothing in this IP Security Agreement shall affect any right that the Security Agent may otherwise have to bring any action or proceeding relating to this IP Security Agreement in the courts of any jurisdiction.

(b) Grantor irrevocably and unconditionally waives, to the fullest extent it may legally and effectively do so, any objection that it may now or hereafter have to the laying of venue of any suit, action or proceeding arising out of or relating to this IP Security Agreement in any New York State or Federal court. Grantor hereby irrevocably waives, to the fullest extent permitted by law, the defense of an inconvenient forum to the maintenance of such action or proceeding in any such court.

9. Waiver of Jury Trial. Each of the parties hereto hereby knowingly, voluntarily and intentionally waives to the fullest extent permitted by law any rights it may have to a trial by jury in respect of any litigation based hereon, or arising out of, under, or in connection with, this IP Security Agreement, or any course of conduct, course of dealing, statements (whether oral or written) or actions of any party hereto in connection therewith. Grantor acknowledges and agrees that it has received full and sufficient consideration for this provision and that this provision is a material inducement for the Security Agent entering into this IP Security Agreement.
