TRADEMARK ASSIGNMENT

This Assignment (the "Assignment"), effective as of November 30, 2023 (the "Effective Date"), is entered into by and between Europe Brands S.à r.l., ("Assignor"), and Sanford, L.P. ("Assignee" and together with Assignor, the "Parties").

RECITALS

WHEREAS, Assignor owns all right, title and interest in and to certain intellectual property, including the trademark registrations and trademark applications set forth on Schedule A attached hereto (the "Dymo Trademarks"), on Schedule C attached hereto (the "Parker Trademarks"), and on Schedule E attached hereto (the "Waterman Trademarks"; the Dymo Trademarks, Parker Trademarks and Waterman Trademarks collectively the "Transferred Trademark Assets");

WHEREAS, Assignor desires to assign all of its right, title, and interest in and to the Transferred Trademark Assets, and Assignee desires to acquire the same.

NOW THEREFORE, in exchange for the mutual promises made herein and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor and Assignee hereby agree as follows:

ARTICLE 1. ASSIGNMENT

Assignor does hereby irrevocably sell, assign, transfer, convey, and deliver all of its right, title, and interest in and to the Transferred Trademark Assets, to Assignee for Assignee's own use and enjoyment and for the use and enjoyment of Assignee's successors, assigns, and other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made. This Assignment includes all right, title, and interest in and to the Transferred Trademark Assets, including but not limited to:

- 1.1 the right to assign or license the Transferred Trademark Assets;
- 1.2 any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any of the Transferred Trademark Assets;
- 1.3 all causes of action for any previously occurring infringement, misappropriation, or violation of the Transferred Trademark Assets, the right to sue for past and future damages, and the right to receive and retain the proceeds relating to the infringement, misappropriation, or violation of the same;
- 1.4 all other rights and interests in and to the Transferred Trademark Assets; and
- 1.5 all of the goodwill associated with the Transferred Trademark Assets.

ARTICLE 2. GENERAL PROVISIONS

- 2.1 **Further Assurances.** The parties agree (i) to furnish upon request to each other such further information, (ii) to execute and deliver to each other such other documents, and (iii) to do such other acts and things, all as the other party may reasonably request for the purpose of carrying out the intent of this Assignment and the transactions contemplated by this Assignment.
- 2.2 **Binding Effect.** This Assignment shall be binding upon and inure to the benefit of and be enforceable by Assignee and Assignor and their respective successors and permitted assigns. This Assignment is not intended to, and shall not be construed to, confer upon any person, other than Assignor and Assignee, any rights or remedies hereunder.
- 2.3 **Governing Law.** This Assignment will be exclusively governed by and construed and enforced in accordance with the internal laws of the State of Delaware, without giving effect to any law or rule that would cause the laws of any jurisdiction other than the State of Delaware to be applied.
- 2.4 **Entire Agreement and Amendment.** This Assignment sets forth the entire agreement and understanding between the parties with respect to the Transferred Trademark Assets. No amendment of any provision of this Assignment shall be valid unless the same shall be in writing and signed by Assignor and Assignee. No waiver by any party of any provision of this Assignment or any default or breach of covenant hereunder, whether intentional or not, shall be valid unless the same shall be in writing and signed by the party against whom the waiver is to be effective nor shall such waiver be deemed to extend to any prior or subsequent default or breach of covenant hereunder or affect in any way any rights arising by virtue of any prior or subsequent such occurrence.
- 2.5 **Counterparts.** This Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which taken together shall constitute one and the same instrument. Facsimiles, e-mail transmission of .pdf signatures or other electronic copies of signatures shall be deemed to be originals.
