**TRADEMARK ASSIGNMENT AGREEMENT**

This TRADEMARK ASSIGNMENT AGREEMENT (this "Assignment") is made as of January 12, 2024 (the "Effective Date") by and between Cyxtera Technologies, Inc., a Delaware corporation ("Assignor"), and Phoenix Infrastructure LLC, a Delaware limited liability company ("Assignee"). Each of Assignor and Assignee are referred to as a "Party" and together as the "Parties".

WHEREAS, Phoenix Data Center Holdings LLC ("Purchaser"), Cyxtera Technologies, Inc. and certain other parties (collectively, "Sellers") have entered a certain Asset Purchase Agreement, dated as of January 12, 2024 (the "APA"), pursuant to which Purchaser has acquired certain assets of Seller and certain other affiliates (as set forth in the APA), including without limitation the Assigned Trademark Rights (defined below) and the Parties desire to memorialize and record such assignment as set forth herein.

NOW, THEREFORE, in consideration of the mutual representations, warranties and covenants set forth herein and in the APA, and for certain monetary consideration and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Assignor hereby irrevocably sell, transfer, assign, convey and deliver to Assignee, and Assignee hereby assumes and accepts, all of Assignor's rights, title, and interest in and to: (a) all trademarks and trademark applications, whether registered or unregistered, throughout the world, owned by Assignor, including the trademark registrations and trademark applications listed on Annex 1 hereto; and all statutory and common law rights in the foregoing; (b) all issuances, extensions and renewals of the foregoing; (c) all the goodwill of the business connected with the use of and symbolized by the foregoing; (d) all defenses relating to or arising from any of the foregoing, and all rights of action arising from the foregoing, including without limitation all claims for damages by reason of present, past and future infringement, dilution or violation of the foregoing and all present, past and future rights to sue and collect damages or seek injunctive relief for any such infringement, dilution or violation of the foregoing; and (e) all income, royalties and any other payments now and hereafter due and/or payable to Assignor in respect of the foregoing, in each case (a) - (e), to be held and enjoyed by Assignee for its own use and benefit and for its successors and assigns as the same would have been held as fully and entirely by Assignor had this assignment not been made (collectively, the "Assigned Trademark Rights").

Notwithstanding anything to the contrary contained herein, the Assigned Trademark Rights shall not include any application for registration of a trademark that would be invalidated, canceled, voided or abandoned due to the conveyance, assignment and/or transfer of the Assigned Trademark Rights hereunder, including intent-to-use applications filed with the United States Patent and Trademark Office pursuant to 15 USC Section 1051(b) prior to the filing and acceptance of a statement of use or amendment to allege use pursuant to 15 USC 1051(c) or (d), unless and until such time that the conveyance, assignment and/or transfer of the Assigned Trademark Rights hereunder will not cause such trademark to be invalidated, canceled, voided or abandoned.

2. Assignor hereby authorize and request the competent authorities including without limitation an official of the United States Patent and Trademark Office or any non-U.S.

governmental trademark office and an official of any intergovernmental organization, whose duty is to issue trademark registrations or other evidence or forms of intellectual property and/or industrial property protection on applications as aforesaid, to issue the same to the Assignee, its successors, and assigns, in accordance with the terms of this Assignment.

3. Assignor shall promptly execute and deliver such documents, and do and perform such acts and things as Assignee, its legal representatives, its successors, and/or assigns may reasonably request to give effect to, document and record, perfect and enforce the assignment herein recited, in each case at Assignee's sole cost and expense. Assignor hereby irrevocably appoint Assignee as the Assignor's attorney-in-fact, authorizing Assignee as such attorney-in-fact to execute and deliver, or cause to be executed and delivered, all such documents and instruments and to take, or cause to be taken, all such further or other actions in connection with the foregoing on behalf of Assignor in the event that Assignor do not take any such actions reasonably promptly following receipt of Assignee's request, in each case at Assignee's sole cost and expense.

4. This Assignment shall be binding upon and inure to the benefit of the Parties and their respective successors and assigns. This Assignment shall be governed by and construed in accordance with the laws of the State of Delaware. This Assignment may be executed in the original or by facsimile in any number of counterparts, each of which shall be deemed an original and all of which together shall constitute one and the same instrument.

<sup>1</sup> Trademarks with a "\*" are intent-to-use trademark applications and will not be assigned unless and until such time that the conveyance, assignment and/or transfer of the mark will not cause such trademark to be invalidated, canceled, voided or abandoned. Further, all such marks were registered under Cyxtera Cybersecurity, Inc. due to a clerical error. Assignor shall use commercially reasonable best efforts to transfer these to Assignee in a timely manner following the Effective Date.
