## ASSIGNMENT OF INTELLECTUAL PROPERTY

This Assignment of Intellectual Property (the "Assignment of Intellectual Property") is made effective as of February 29, 2024 (the "Effective Date"), by and among DX OILFIELD PRODUCTS LLC, a Texas limited liability company ("Assignor"), and PVS DX, INC., a Michigan corporation ("Assignee").

WHEREAS, Assignor and Assignee are parties to a Purchase and Sale Agreement dated as of the Effective Date of this Assignment of Intellectual Property (the "Agreement"), pursuant to which Assignee has purchased the Purchased Assets (as defined in the Agreement); and

WHEREAS, pursuant to the Purchase Agreement, Assignor has agreed to assign intellectual property to Assignee, and this Assignment of Intellectual Property is contemplated by Section 4.1(c) of the Agreement;

NOW, THEREFORE, for and in consideration of the premises and the mutual covenants contained in this Assignment of Intellectual Property, and for other good and valuable consideration, the receipt, adequacy and legal sufficiency of which are hereby acknowledged, the Parties agree as follows:

- Capitalized Terms.** Capitalized terms used but not defined in this Assignment of Intellectual Property shall have the meanings for such terms that are set forth in the Agreement.
- Assignment.** Effective as of the Closing Date (which is the same as the Effective Date defined above), Assignor hereby assigns, sells, transfers and sets over (collectively, the "Assignment") to Assignee all of Assignor's right, title, benefit, privileges and interest in and to the intellectual property, including all goodwill of the business associated therewith, described on **Exhibit A** to this Assignment of Intellectual Property (the "Intellectual Property"). Assignee hereby accepts the Assignment. The Intellectual Property shall be held and enjoyed by the Assignee for its own use and for the use of its successors, assigns or other legal representatives, together with all claims for damages by reason of past, present and future infringement of the rights assigned under this Assignment of Intellectual Property, with the right to sue for and collect the same for its own use and benefit, and for the use and benefit of its successors, assigns and other legal representatives, as fully and entirely as the same would have been held and enjoyed by the Assignor if this transfer to the Assignee had not been made. Assignor authorizes and requests that the United States Commissioner of Patents and Trademarks and/or any other respective governmental agency record Assignee as the owner of the entire right, title and interest in and to the Intellectual Property, for the sole use and enjoyment of Assignee, its successors, assigns or other legal representatives.
- Terms of the Purchase Agreement.** The terms of the Agreement, including but not limited to the Parties' representations, warranties, covenants, agreements and indemnities relating to the Intellectual Property, are incorporated in this Assignment of Intellectual Property by this reference. Each of the Parties acknowledges and agrees that the representations, warranties, covenants, agreements and indemnities contained in the Agreement shall not be superseded by this Assignment of Intellectual Property but shall remain in full force and effect to the full extent provided in the Agreement. In the event of any conflict or inconsistency between the terms of the Agreement and the terms of this Assignment of Intellectual Property, the terms of the Agreement shall govern.
- Further Actions.** Each of the Parties to this Assignment of Intellectual Property covenants and agrees, at its own expense, to execute and deliver, at the request of the other Party to this Assignment of Intellectual Property, such further instruments of transfer and assignment and to take such other action as

such other Party may reasonably request to more effectively consummate the assignments and assumptions contemplated by this Assignment of Intellectual Property.
