## ASSIGNMENT OF COPYRIGHT AND OTHER INTELLECTUAL PROPERTY RIGHTS

This Assignment of Copyright and other Intellectual Property Rights (the "Assignment") is entered into and made effective as of May 31, 1994 between SLR Systems Inc., a Pennsylvania corporation ("SLR"), Symantec Corporation, a Delaware corporation ("Symantec") and Stephen L. Russell ("Developer").

### RECITALS

- A. Developer is the developer of OPTLINK, OPTASM AND OPTLIB (the "Software").
- B. Symantec and SLR have agreed to enter into an Agreement and Plan of Reorganization dated January 25, 1994 (the "Plan"), pursuant to which SLR will be merged into Symantec, with Symantec surviving the merger.
- C. The parties now wish to ensure that all the intellectual property rights in and to the Software are vested in SLR prior to the Closing (as defined in the Plan).

NOW, THEREFORE, in consideration of the above premises and as an inducement to Symantec to enter into the Plan with SLR, the parties agree as follows:

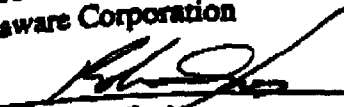

1. Assignment: Developer hereby irrevocably assigns to SLR all of his right, title and interest in and to all Software, computer software programs and documentation that have been, or are used, marketed or licensed by SLR on or before the effective date of this Assignment, including but not limited to the Software listed on Exhibit A attached hereto, and all intellectual property rights therein, including all source code, object code, patents, patent rights, patent applications, copyrights (including moral rights), copyright registrations, trade secrets, rights of priority, technology, know-how, trademarks, service marks, trademark and service mark registrations, related goodwill and confidential and proprietary information related thereto (collectively, the "Intellectual Property Rights"), including, but not limited to the right to secure renewals, reissuances and extensions of the foregoing. Developer will assist SLR, and any successor corporation, in any recordation or registration of the Intellectual Property Rights or of this Assignment by executing acknowledging and delivering any documents that may be necessary to protect, preserve or perfect SLR's rights in the Intellectual Property Rights.
2. Representations and Warranties. Developer represents and warrants to Symantec that, except for a grant of rights to SLR, Developer has not previously granted and will not attempt to grant any rights in the Intellectual Property Rights or any derivative work based on the Intellectual Property Rights to any third party; that Developer has full power to enter into this

Agreement, to carry out his obligations under this Agreement and to grant the rights granted to Symantec hereunder.

3. **No Modification.** This Agreement may not be modified except by actual written consent of the parties. This Agreement will not be effective if the Plan is terminated in accordance with its terms.
