ASSIGNMENT OF INTELLECTUAL PROPERTY ASSETS

WHEREAS, PIXELVISION TECHNOLOGY, INC., a Delaware corporation (the "Assignor"), is the owner of the patents, trademarks, service marks, trade secret rights, copyrights, moral rights and all other proprietary rights set forth on Exhibit A attached hereto (collectively the "Intellectual Property Assets");

WHEREAS, Assignor has entered into that certain Asset Purchase Agreement of even date herewith (the "Purchase Agreement"), whereby Assignor is selling to CYBEX COMPUTER PRODUCTS CORPORATION, an Alabama corporation (the "Assignee"), substantially all of its assets, including all of its interest in the Intellectual Property Assets, upon the terms and subject to the conditions set forth therein;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor by these presents does hereby grant, bargain, sell, assign, transfer and set over to the Assignee, its successors, assigns, and legal representatives, all of Assignor's right, title and interest of every kind and character throughout the world and in all countries in and to

- (i) the inventions described in the issued patents and applications for Letters Patent of the United States and foreign countries set forth on Exhibit A attached hereto, and all the rights and privileges under any and all Letters Patent that may be granted therefor and thereon and all reissues, applications for re-examination, extensions or patent interference proceedings growing out of or related to any of said Intellectual Property Assets; and all applications for industrial property protection, including, without limitation, all applications for patents, utility models, and designs which may hereafter be filed for said invention in any country or countries foreign to the United States, together with the right to file such applications and the right to claim for the same the priority rights derived from said issued patents and applications under the Patent Laws of the United States, the International Convention for the Protection of Industrial Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable; and all applications for industrial property protection, including, without limitation, all applications for patents, utility models, and designs which may hereafter be filed for said invention in any country or countries foreign to the United States, together with the right to file such applications; and all forms of industrial property protection, including without limitation, patents, utility models, inventors' certificates and designs which may be granted for said invention in any country or countries foreign to the United States and all extensions, renewals and reissues thereof, and
- (ii) the trademarks, service marks, trade secret rights, copyrights in both published and unpublished works, moral rights, trade secret rights, know-how, confidential business information and other proprietary rights (the "Rights"), including, without limitation, those assets and Rights set forth on Exhibit A attached hereto, together with the goodwill of the business symbolized by the Rights and the common law rights thereof to the full end.

of the term for which the Rights are allowed, as fully and entirely as the same would have been held had this Assignment not been made, together with all claims for damages by reason of past infringement of the Rights, with the right to sue for and collect the same for its own use and for the use of its successors, assigns or other legal representatives.

Assignor hereby authorizes and requests that the Commissioner of Patents and Trademarks of the United States and any Official of any country or countries foreign to the United States, whose duty is to issue registrations of patents, trademarks, service marks, or other evidence or forms relating to the Intellectual Property Assets on applications aforesaid to record the assignment of the Intellectual Property Assets and to issue the same to Assignee, for the sole use and behoof of Assignee, its successors, assigns and legal representatives, or to such nominees as it may designate.

Assignor agrees that, when requested, it will, without charge but at its expense, sign all papers, take all rightful oaths, and do all acts which may be reasonably necessary, desirable or convenient for vesting, securing and maintaining right, title, and interest in and to the Intellectual Property Assets in any and all countries in Assignee, its successors, assigns and legal representatives, or to such nominees as it may designate.

Assignor hereby authorizes and empowers Assignee, its successors, assigns and legal representatives or nominees, to invoke and claim for any application for patent or other form of protection for the inventions, the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable, and to invoke and claim such right of priority without further written or oral authorization from Assignor.

Assignor hereby consents that a copy of this Assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file or like document which may be required in any country for any purpose and more particularly in proof of the right of the Assignee, its successors, assigns and legal representatives, or its nominees as such may be designated from time to time to claim the aforesaid benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it.

Assignor hereby represents and covenants that the Intellectual Property Assets and the right, title and interest herein conveyed are free and clear of any liens, security interests, claims, interests, options, encumbrance, or indebtedness of any kind, and that it has full right to convey the same as herein expressed.
