GLOBAL TRADEMARK ASSIGNMENT

This Global Trademark Assignment (this "Assignment") is made on this 15th day of June, 2006, by and between Larscom Incorporated, a Delaware corporation ("Assignor") as debtor and debtor-in-possession, and Winslow Asset Holdings, LLC, a Georgia limited liability company ("Assignee"). Each of the foregoing parties is referred to herein individually as a "Party" and together as the "Parties."

WHEREAS, Assignor and SCS Fund L.P., a Georgia limited partnership ("SCS") are party to that certain Asset Purchase Agreement, dated June 6, 2006 (the "Asset Purchase Agreement");

WHEREAS, in accordance with the terms of the Asset Purchase Agreement, SCS has transferred all of its rights and obligations under the Asset Purchase Agreement to Assignee;

WHEREAS, Assignor is the owner of the marks listed on the attached Schedule A (hereinafter collectively "Marks"), the United States Patent and Trademark Office and foreign applications and registrations therefor, and the goodwill developed through the use of the Marks, all as set forth in the Asset Purchase Agreement;

WHEREAS, Assignor desires to assign the Marks and Assignee desires to acquire Assignor's rights in and to the Marks, and the applications and registrations therefore and the goodwill developed through the use of the Marks; and

WHEREAS, pursuant to the Asset Purchase Agreement, Assignor has agreed to transfer its interest in and to the Marks to Assignee, and Assignee has agreed to acquire and assume the Marks from Assignor, under the terms set forth therein.

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the Parties hereby agree as follows:

1. Assignment. Assignor, being the owner of the Marks, hereby irrevocably and unconditionally sells, assigns, transfers and sets over to Assignee, and Assignee hereby accepts, all of Assignor's worldwide right, title and interest in and to the Marks, the applications and registrations therefor as identified on Schedule A, along with any priorities, rights or registrations resulting therefrom, and the goodwill of the business connected with the Marks, the same to be held and enjoyed by Assignee, its successors, assigns and other legal representatives as fully and entirely as the same would be held and enjoyed by Assignor had this Assignment not been made. This Assignment shall not constitute an assignment or other transfer of any rights, claims or causes of action of Assignor against third parties relating to the Marks arising out of events occurring on or before the date hereof including, but not limited to, any damages or other proceeds in connection therewith (the "Legacy Claims"); provided, however, that (a) Assignee shall be entitled to participate in the prosecution or defense of the Legacy Claims in order to protect its ownership interests in the Marks, to the extent such Legacy Claims could reasonably be expected to compromise Assignee's ownership interest in the Marks, and to employ counsel at its own expense with respect thereto, (b) Assignor shall obtain the prior written approval of

Assignee, which shall not be unreasonably withheld, before entering into a settlement of a Legacy Claim, which could reasonably be deemed to compromise Assignee's ownership interest in a Mark, and (c) with respect to a Legacy Claim, Assignor becomes aware but elects not to pursue, Assignor shall promptly notify Assignee in writing of such election and Assignee shall be entitled, to the same extent Assignor is or would have been entitled prior to the date hereof, to pursue such Legacy Claim, to the extent such Legacy Claim could reasonably be expected to compromise Assignee's ownership interest in the Marks, and recover exclusively (including, for purposes of clarification, to the exclusion of Assignor) past, present or future damages, royalties, fees, profits or other relief, including equitable or injunctive relief, arising from or relating to such Legacy Claim, and (d) in the event Assignee becoming aware of a Legacy Claim, Assignee shall promptly notify Assignor in writing of such events.

2. Nature of Assignment. This Assignment is made AS IS without representation or warranty of any kind, express or implied, including, but not limited to, any warranty of title, noninfringement or validity; provided that, subject to entry with the U.S. Bankruptcy Court of the sale order approving the Asset Purchase Agreement and the consummation of the transactions contemplated thereby, the Assignee shall be vested with title to the Marks free and clear of all liens or other encumbrances, to the fullest extent permissible under Section 363 of the U.S. Bankruptcy Court.

3. Counterparts. This Assignment may be executed in one or more counterparts, and by the Parties in separate counterparts, each of which when executed shall be deemed to be an original but all of which taken together shall constitute one and the same agreement. Delivery of an executed counterpart of a signature page to this Assignment by facsimile shall be as effective as delivery of a manually executed counterpart of this Assignment.

4. Entire Agreement. This Assignment contains the entire agreement of the Parties with respect to the subject matter hereof. This Assignment shall not be deemed to limit, enlarge or extinguish any obligation of Assignor or Assignee under the Asset Purchase Agreement, all of which obligations shall survive the delivery of this Agreement in accordance with the terms of the Asset Purchase Agreement.
