ASSIGNMENT OF SECURITY INTEREST
IN UNITED STATES PATENTS AND TRADEMARKS

This Assignment of Security Interest in United States Patents and Trademarks (this "Agreement"), dated as of March 27, 2007, is by and between US Acquisition, LLC, a Delaware limited liability company ("Assignor"), and RFC Waterpark, LLC, a Delaware limited liability company ("Assignee").

Recitals

A. Pursuant to that certain Assignment Agreement, dated April 3, 2000 (the "2000 Assignment"), SCS Interactive, Inc., an Oregon corporation ("SCS"), and Rick A. Briggs ("Briggs"), conveyed unto Koala Corporation, a Colorado corporation ("Koala"), all their respective rights, title and interest in and to (i) all patents and pending patent applications, U.S. or foreign, set forth on Schedule A attached hereto (the "Patents") and (ii) the United States trademarks, trademark registrations and trademark applications set forth on Schedule B attached hereto (the "Marks").

B. Koala entered into an Amended and Restated Revolving Credit, Term Loan and Security Agreement, dated as of September 26, 2001 (as amended from time to time thereafter, the "Amended and Restated Credit and Security Agreement") with U.S. Bank National Association ("US Bank"), in its capacity as agent and a lender thereunder, and the other lenders party thereto (collectively, the "Lenders"), pursuant to which Koala granted the Lenders a security interest in, and a lien on, among other things, certain intellectual property, including all trademark, trademark rights, patents and patent rights then owned by Koala or thereafter acquired, which includes, without limitation, the Patents and the Marks.

C. Pursuant to that certain Assignment and Assumption of Assignment Agreement dated July 20, 2006 (the "2006 Assignment"), Assignor was the ultimate purchaser of all of US Bank's interest under and in the Amended and Restated Credit and Security Agreement and the other Loan Documents (as such term is defined in the 2006 Assignment).

D. In connection with the 2006 Assignment, Koala granted Assignor a security interest in the Patents and Marks pursuant to that certain Grant and Assignment of Security Interest in United States Patents and Trademarks (the "2006 Grant"), dated as of July 20, 2006, which 2006 Grant was filed with the United States Patent and Trademark Office.

E. Pursuant to that certain Assignment Agreement dated March 27, 2007 (the "Debt Assignment"), Assignee purchased from Assignor all of Assignor's interest under and in the Amended and Restated Credit and Security Agreement and the other Loan Documents (as such term is defined in the Debt Assignment).

F. In connection with the Debt Assignment, Assignor agreed to document the assignment to Assignee of the security interest of Assignor in the Patents and Marks in the manner set forth herein.

Agreement

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and in consideration of the mutual covenants and promises contained herein, the parties hereto agree as follows:

1. Assignment. Assignor does hereby assign to Assignee the security interest, which security interest was granted to Assignor pursuant to the Amended and Restated Credit and Security Agreement and the 2006 Grant, in all of Koala's right, title and interest in, to and under (a) the Patents listed on Schedule A, (b) the Marks listed on Schedule B, including without limitation all common law marks connected therewith, together with the goodwill of the business symbolized thereby and associated therewith, in each case together with (x) all proceeds and products of the Patents and Marks, and (y) all causes of action arising prior to or after the date hereof for infringement of any of the Patents or Marks, or unfair competition regarding the same, with such grant being subject in each case to all of the terms and conditions of the Amended and Restated Credit and Security Agreement.

2. Further Assurances. Assignor agrees to execute, acknowledge and deliver, or cause to be executed, acknowledged and delivered, all such other documents and instruments as may be necessary to carry out the intent of this Agreement including without limitation (a) taking all such actions as may be necessary in the applicable domestic and foreign government offices and records to fully vest in Assignee the security interest in all right, title and interest in and to the Patents and the Marks, and (b) assigning the security interest in the Patents and Marks on such instruments and forms as may be necessary or appropriate under the laws, rules and regulations of applicable domestic and foreign government bodies, authorities and agencies, which instruments and forms shall be deemed to include all of the rights, powers and privileges set forth herein as if set forth therein.

3. General Provisions

(a) *Waiver/Modification.* No waiver or modification of any of the terms or provisions of this Agreement shall be valid unless contained in a written agreement signed by both parties. No course of conduct or dealing between the parties shall act as a waiver of any term or provision of this Agreement.

(b) *Governing Law.* This Agreement will be governed and construed in accordance with the laws of the State of Colorado.

(c) *Binding Effect.* This Agreement shall be binding upon Assignor and its successors and assigns and inure to the benefit of Assignee and its successors and assigns.

(d) *Severability.* If any provision of this Agreement is found invalid or unenforceable, in whole or in part, the remaining provisions and partially enforceable provisions will, nevertheless, be binding and enforceable.

(e) *Counterparts.* This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

This Agreement is executed by the parties hereto as of the date first set forth above.
