ASSIGNMENT AND TRANSFER OF INTELLECTUAL PROPERTY

THIS ASSIGNMENT AND TRANSFER OF INTELLECTUAL PROPERTY (this “*Assignment*”) is entered into as of June 4, 2008 by and between AMERICAN IRONHORSE MOTORCYCLE COMPANY, INC. (also known in the Chinese language as Mei Guo Ai Rui Hao Mo Tuo Che Gu Fen You Xian Gong Si), a Texas corporation (“*Seller*”) and AIH ACQUISITION, LLC, a Delaware limited liability company (“*Buyer*”).

RECITALS OF FACT

A. Buyer and Seller are parties to an Asset Purchase and Sale Agreement dated May 15, 2008, as amended (the “*Purchase Agreement*”), providing, among other things, for the sale by Seller and the purchase by Buyer of all of Seller’s right, title and interest in, to and under all Intellectual Property owned, licensed or sublicensed by or to Seller, including, without limitation, those set forth in Attachment A hereto and all of Seller’s rights to income on royalties attributable to the Intellectual Property, together with any and all goodwill of Seller relating to the Business (collectively, the “*Transferred Intellectual Property*”).

B. In order to effectuate the sale and purchase of the Transferred Intellectual Property, Seller is executing and delivering this Assignment to the Buyer.

AGREEMENT

In consideration of the covenants, representations and agreements set forth herein and in the Purchase Agreement and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Capitalized Terms. Capitalized terms used in this Assignment, including the recitals and preamble, will have the meanings set forth in the Purchase Agreement, unless otherwise provided in this Assignment.

2. Assignment. Seller hereby sells, assigns, transfers, conveys, and delivers exclusively unto Buyer all right, title and interest in and to the Transferred Intellectual Property, including, without limitation, all Intellectual Property listed on Attachment A attached hereto, and further including, without limitation:

(a) the goodwill of the Business symbolized by the names, marks, trade dress and other indicators of source included in the Transferred Intellectual Property together with all registrations, applications for registrations, and common law rights in any country in the world;

(b) copyrights and any copyright registrations and applications included in the Transferred Intellectual Property;

(c) issued patents and pending patent applications included in the Transferred Intellectual Property;

(d) domain names included in the Transferred Intellectual Property; and

(e) all rights to sue, recover and retain damages (and costs and attorneys' fees) for present and past infringement of any of the Transferred Intellectual Property.

In the case of any intent-to-use trademark or service mark applications included in the Transferred Intellectual Property that are currently pending in the United States, Seller acknowledges that the Buyer is a successor to the business of the Seller, or portion of the business of the Seller, to which the marks pertain, and that such business is ongoing and existing.

3. Further Assurances. As and when requested by Buyer from time to time, Seller shall execute and deliver, or cause to be executed and delivered, such documents and instruments and shall take, or cause to be taken such further or other actions as may be reasonably necessary to carry out the purposes of this Assignment or any related provision of the Purchase Agreement, including any documents as Buyer may deem necessary or desirable for recordation of a release of any liens and information such as user ID and password to enable Buyer to access and obtain control of any of Seller's domain names and domain name accounts. Seller hereby expressly agrees that Buyer may singly, and without assistance or consent from Seller, undertake procedures to record this Assignment in the United States Patent and Trademark Office or other applicable agency or governmental entity. Buyer shall pay all registration costs and recordation and filing fees relating to this Assignment.

4. Acknowledgement of Rights. Seller hereby acknowledges that, from and after the effective date of this Assignment, Buyer has acceded to all of Seller's right, title and standing to:

(a) Receive all rights and benefits pertaining to the Transferred Intellectual Property.

(b) Institute and prosecute all suits and proceedings and take all actions that Buyer, in its sole discretion, may deem necessary or proper to collect, assert, or enforce any claim of any kind relating to any right, title or interest assigned hereunder.

(c) Defend and compromise any and all such actions, suits or proceedings relating to any right, title or interest assigned hereunder, and perform all other such acts in relation thereto as Buyer, in its sole discretion, deems advisable.

(d) Register, maintain, renew or otherwise apply for new or continuing statutory protection for any Transferred Intellectual Property, including but without limitation, any patent, copyright and trademark protection.

5. Waiver. Seller hereby waives and relinquishes any and all rights that it may have to any utilization of the Transferred Intellectual Property or to object to any use of the Transferred Intellectual Property by Buyer.

6. Representations, Warranties, and Agreements. The Transferred Intellectual Property is being sold by Seller subject to the representations, warranties and agreements of Seller contained in the Purchase Agreement.

7. Successors and Assigns. This Assignment shall bind Seller and inure to the benefit of Buyer and its successors and assigns.

8. Counterparts. This Assignment may be executed in several counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

9. Descriptive Headings. The descriptive headings of the several paragraphs of this Assignment were inserted for convenience only and shall not be deemed to affect the meaning or construction of any of the provisions hereof.
