INTELLECTUAL PROPERTY ASSIGNMENT

This Intellectual Property Assignment ("Assignment") is made and entered into as of the 31st day of March, 2009 ("Effective Date"), by LIVING WATER PRODUCTS, INC., a Florida corporation formerly known as Gulf Coast Spa Manufacturers, Inc., SPA SERVICES, INC., a Florida corporation, and TATUM MANUFACTURING, INC., a Florida corporation (collectively, hereinafter "Assignor"), for the benefit of 2033875 Ontario Inc., an Ontario corporation, and its assigns (hereinafter "Assignee"). Assignor and Assignee are sometimes referred to collectively as the "parties," each being a "party."

RECITALS

WHEREAS, Assignor is the owner of certain United States and foreign issued patents and pending patent applications, trademarks, trade names, logos, copyrights, and domain names; and

WHEREAS, Assignee is desirous of acquiring, and Assignor is desirous of transferring and assigning all of its right, title and interest in and to said Intellectual Property (as hereinafter defined) to Assignee pursuant to the terms and conditions in this Assignment.

NOW THEREFORE, in exchange for the payment of the purchase price set forth in the Asset Purchase Agreement, dated as of even date herewith providing for the sale by the Assignor to the Assignee of certain of the assets of the Assignor, and other good and valuable consideration and the mutual covenants and promises contained in this Assignment, the receipt and sufficiency of which are acknowledged, Assignor and Assignee, intending to be legally bound, agree as follows:

1. Transfer of Intellectual Property.

(a) Assignor hereby sells, transfers, conveys and assigns all of its right, title and interest whatsoever throughout the world in and to the trademarks, service marks, logos, trade names, copyrights, domain names, and domestic and foreign patents (together with all continuations, continuations in part, divisions, reissues, reexaminations, and extensions thereof, and the inventions described and claimed therein, all other rights arising out of such inventions and discoveries, and all United States and foreign patents and filings, utility models, and design registrations that may be (or have been) filed or granted based on such inventions or improvements, and the right to claim priority based on the filing date of the applications and patents under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes), listed on Exhibit A, whether registered or unregistered, together with all applications to register such intellectual property, and registrations of such intellectual property (collectively, the "Intellectual Property") and all renewals and extensions of any of the foregoing and the goodwill of all business connected with the use of and symbolized by the Intellectual Property and all licenses related to any of the foregoing, to Assignee. Included with such transfer and assignment is the right to sue for and obtain damages or other available remedies for all past, present and future infringements of the Intellectual Property and all income, royalties or payments due or payable as of the Effective Date or thereafter with respect to the Intellectual

Property, the same to be held and enjoyed by Assignee, its successors and assigns from and after the date of this Assignment as fully and entirely as the same would have been held and enjoyed by Assignor had this Assignment not been made. Assignor further transfers and assigns the right to file for and obtain registrations of the Intellectual Property anywhere in the world for the goods and services covered by the assigned applications and registrations and for any other goods and services for which the Intellectual Property is presently used, with the right to base priority on Assignor's first date of use or on any application and/or registration being assigned herein. To the extent any of the rights, interests or assets identified in Exhibit "A" are not intellectual property but instead constitutes tangible assets, this Assignment shall constitute an assignment and conveyance of all of Seller's right, title and interest in such assets.

2. Assignor hereby further agrees and covenants that Assignor, or Assignor's legal representatives and assigns, as the case may be, shall execute and convey as directed upon Assignee's request (or the request of Assignee's successor or assigns), without demanding any further consideration therefor, any and all other documents, information, evidence or facts requested by Assignee that are known or available to Assignor (or its successor or assigns) relating to said inventions, patents and patent applications, or the history thereof, as Assignee in its sole discretion deems advisable or necessary in order to fully vest all rights herein transferred to Assignee in Assignee, and will testify as to the same in any interference or other litigation or legal proceeding when requested to do so.

3. Assignor hereby authorizes the United States Patent and Trademark Office, United States Copyright Office, and any similar foreign or domestic government authority to transfer the Intellectual Property, and any other governmental grants or issuances that may be granted upon any of the Intellectual Property rights, to Assignee as assignee of the entire right, title and interest therein or otherwise as Assignee may direct, in accordance with this Assignment.

4. The Assignor hereby represents and warrants to Assignee that the Assignor is the owner of the assets identified in Exhibit A, that the rights, title and interest in said assets are presently valid, and that there are no claims or pending claims against such assets except as specifically disclosed by Assignor to Assignee in the Asset Purchase Agreement.

5. This Assignment constitutes the entire agreement and supersedes all prior agreements between the parties pertaining to the transfer of the Intellectual Property, and shall be deemed binding upon the parties, their heirs, legal representatives and successors.

6. This Assignment shall be governed by and construed and interpreted in accordance with the laws of the State of Florida.

7. Assignor and Assignee hereby grants to Clark, Campbell, Mawhinney & Lancaster, P.A. of Lakeland, Florida, U.S.A., the authority and power to insert on this instrument any further identification which may be necessary or desirable for purposes of recordation in the United States Patent and Trademark Office, the United States Copyright Office and any similar foreign or domestic government authority to transfer the Intellectual Property.

8. This Assignment may be executed in two or more counterparts, each of which shall for all purposes be deemed an original and all of which shall constitute one and the same instrument.

IN WITNESS WHEREOF, the Assignor has executed this Assignment as of March 30, 2009.

INFRINGEMENTS:

- Placed Dynasty Spas on notice June 2, 2007 that their parts component arrangement infringes on our pending Power Depot patent.
- Notified IP council in August 2007, that Innovative Spa Technologies, might also be infringing on our pending Power Depot patent.
- Placed HydroSpa/Premium Leisure on notice March 7, 2008 that their "Pleasure/Premier" model(s) infringes on our hot tubs shell design patent that has since issued. Also claimed "tortious interference" with our Gulf Coast dealer base.
- Notified IP council in a conference call June 26, 2008 with Len Carter about potential competitive encroachment (Master Spas, Watkins Manufacturing and Sundance Spas) on our variable speed motor patent application
