**ASSIGNMENT OF INVENTIONS,
APPLICATIONS AND PATENTS**

FOR GOOD AND VALUABLE CONSIDERATION exchanged between Assignor and Assignee, receipt of which is acknowledged by Assignor:

1. Assignor declares and agrees that as used in this document ("Assignment") the following terms have the following meaning:

A. "Applications" means and includes both individually and collectively the Nonprovisional Application for United States Patent for the inventions identified in Exhibit A attached to and incorporated by reference into this document.

B. "Letters Patent" means and includes both individually and collectively (i) any and all letters patent issued in the United States and anywhere in the world in connection with the Applications identified in Exhibit A attached to and incorporated by reference into this document; and (ii) any and all direct and indirect divisions, continuations, and continuations-in-part of the Application and any Letters Patent; (iii) any and all reissues or extensions of Letters Patent; and (iv) any and all rights under any international treaties and conventions, including without limitation the International Convention for the Protection of Industrial Property; (v) any and all applications for a patent or patents filed in countries other than the United States ("Foreign Countries"); and (vi) any and all patents that issue in connection with the invention or inventions disclosed in the Application.

C. "Trademarks" means both individually and collectively the trademarks and trademark registrations identified in Exhibit B attached to and incorporated by reference into this document, including all rights to incontestability and renewal, and all goodwill.

D. "Assignor" means Kenneth Turos, whose residence address is 2355 Rincon de Amigos, Las Cruces, New Mexico 88012, telephone number 575-523-6116.

E. "Assignee" means Sun Systems, Inc., P.O. Box 250, Las Cruces, New Mexico 88004, 220 N. 17th Street, Las Cruces, New Mexico 88005, telephone number (575) 828-2000, including (i) any and all subsidiaries, affiliates and controlled companies of Assignee, and (ii) any and all successors, assigns and legal representatives of Assignee.

F. "Attorney" means Ray R. Regan, Esq., whose mailing address is P.O. Box 1442, Corrales, New Mexico 87048, whose telephone number is (505) 897-7200, email:

rayregan@rayregan.com.

G. "Inventions" means the entire right, title and interest of Assignor in connection with the inventions described in the Applications and Letters Patent.

2. In consideration of the mutual promises provided in this Assignment and other good and sufficient consideration, receipt of which is acknowledged, Assignor assigns, sells, and conveys the Inventions, the Applications, and the Letters Patent to Assignee.

3. Assignor also assigns, sells, and conveys to Assignee any and all improvements and modifications in connection with the Inventions.

4. Assignor also assigns, sells, and conveys to Assignee the entire right title and interest of Assignor to file patent applications in Foreign Countries in connection with the Application and Invention ("Foreign Applications"), including the right to claim all benefits of any and all international conventions in connection with Foreign Applications.

5. Assignor authorizes and requests the United States Commissioner of Patents and Trademarks, and patent office officials in Foreign Countries who are authorized by the patent laws of the Foreign Countries to issue patents, to issue any and all Letters Patent and other forms of patents in connection with the Inventions, Applications, and Foreign Applications to Assignee as owner of the entire right, title and interest in the Invention, and for the sole use and benefit of Assignee.

6. Assignor will, without receiving additional consideration and without expense to Assignor, sign any and all lawful papers and writings, and perform any and all other lawful acts Assignee may request of Assignor which are, in the sole discretion of Assignee, appropriate or necessary to fully implement and make effective this Assignment, including by way of example but not of limitation (i) promptly executing all original, divisional, continuing, continuation-in-part applications, substitute, reissue, and other United States and Foreign Countries' Applications in connection with the Invention; (ii) promptly executing any and all lawful documents requested

by the Assignee to further the prosecution of any Applications in connection with the Invention, and (iii) cooperating with Assignee in executing any and all lawful documents and producing evidence in connection with any nullification, reissue, extension, infringement and invalidity proceedings involving the Invention.
