INTELLECTUAL PROPERTY ASSIGNMENT

This INTELLECTUAL PROPERTY ASSIGNMENT (this "Assignment") is entered into and made effective as of February 8, 2012 between NNC LLC, a Delaware limited liability company ("Assignor"), and PREVENTION, LLC, a Delaware limited liability company ("Assignee").

WHEREAS, pursuant to the Asset Purchase Agreement, dated as of February 8, 2012 (the "APA"), between Assignor and Assignee, Assignee desires to acquire and Assignor desires to convey all of Assignor's right, title and interest in and to the intellectual property more fully described on Exhibit A attached hereto (collectively, the "Intellectual Property");

WHEREAS, this Assignment is being executed and delivered by the parties in connection with the consummation of the transactions contemplated by the APA.

NOW, THEREFORE, be it known that for and in consideration of Ten Dollars (US\$10.00), and pursuant to and in accordance with the terms and provisions of the APA, and for the consideration set forth therein, and other good and valuable consideration, the receipt and sufficiency of which hereby are acknowledged, the parties hereby agree as follows:

1. Assignment of Intellectual Property. Assignor hereby sells, assigns, transfers, conveys and delivers to Assignee, and Assignee hereby purchases and acquires from Assignor, all of Assignor's right, title and interest in, to and under the Intellectual Property. Without limitation of the foregoing, Assignor hereby further sells, assigns, transfers, conveys and delivers to Assignee Assignor's entire right, title and interest in and to: (a) the trademarks, trademark applications and trademark registrations identified on Exhibit A, including the goodwill associated therewith and including the portions of Assignor's business to which such trademarks pertain, such business being ongoing and existing; (b) the domain names and domain name registrations identified on Exhibit A; (c) all applications and registrations for the Intellectual Property, including without limitation the right to apply therefore, and any and all renewals and extensions thereof that may be secured under all laws now or hereafter in force; and, (d) all claims, causes of action and damages by reason of infringement, misappropriation or violation of rights related to any of the foregoing (including without limitation the right to sue for, and to collect damages arising from, past, present or future infringement, misappropriation or violation of rights related to any of the foregoing); all for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors and assigns, for the full term and to the full extent of all such rights, and in all countries throughout the world wherein Assignor owns, possesses, or controls such rights. To the extent any applicable law or treaty prohibits the transfer or assignment of any moral rights or rights of restraint Assignor has in Intellectual Property transferred herein to Assignee, Assignor hereby waives those rights as to Assignee, and Assignee's licensees, successors and assigns.

2. Successors and Assigns; No Third Party Beneficiaries. This Assignment shall be binding upon and inure to the benefit of Assignor, Assignee and their respective successors and permitted assigns, including any successor by way of merger, consolidation or acquisition of all or substantially all of the assets of a party. This Assignment shall not benefit or create any right or cause of action in or on behalf of any third party other than the parties hereto and their respective successors and permitted assigns.

3. Further Assurances. As and when requested by any party and without further consideration, each party shall execute and deliver, or cause to be executed and delivered, such other documents and instruments and shall take, or cause to be taken, such further or other actions as the other party may reasonably request or as otherwise may be necessary or desirable to evidence and effectuate the consummation of the transactions contemplated by the APA and this Assignment.

4. Governing Law. This Assignment shall be governed by, and construed in accordance with, the substantive laws of the State of Delaware, without regard to any choice of law or conflict of law rules.

5. Counterparts. This Assignment may be executed in any number of original or facsimile counterparts, each of which shall constitute an original instrument, but all of which together shall constitute one and the same agreement.

6. Section Headings. Section headings have been inserted in this Assignment for convenience of reference only and shall not be deemed to be a part of or to affect the meaning or interpretation of this Assignment.

7. Relationship to APA. This Assignment is executed and delivered pursuant to, is in furtherance of, and is subject to the terms and conditions of the APA. In the event of any conflict between the terms of the APA and the terms of this Assignment, the terms of the APA shall prevail. Nothing contained in this Assignment shall be deemed to alter, modify, expand or diminish the terms or provisions of the APA.
