ASSIGNMENT

WHEREAS, MAQUET HOLDING B.V. & CO. KG, a Limited Partnership duly organized under and existing by virtue of the laws of Germany, located and doing business at Kehler Straße 31, Rastatt, Germany 76437 (“Assignor”), has acquired, owns and uses the trademark MAQUET in connection with the goods and services listed in attached Exhibit A and is the owner of the US Trademark Application No. 85754251; and

WHEREAS, MAQUET GMBH, a Corporation duly organized under and existing by virtue of the laws of Germany, located and doing business at Kehler Strasse 31, Rastatt, Germany 76437 (“Assignee”), is desirous of acquiring the said trademark MAQUET and the said US Trademark Application No. 85754251 and the portion of the business to which it pertains;

NOW, THEREFORE, for One Dollar (\$1.00), and other good and valuable consideration, the receipt of which is hereby acknowledged, said Assignor does hereby assign, sell and transfer unto the said Assignee the entire right, title and interest in and to the said trademark MAQUET, together with the good will of the business symbolized by the mark MAQUET and the portion of the business to which it pertains, and the said US Trademark Application No. 85754251.

The trademark MAQUET and the said US Trademark Application No. 85754251 to be held and enjoyed by the said Assignee, for its own use and behoof and for its successors and assigns, as fully and entirely as the same would have been held by the said Assignor had this assignment and sale not been made.

ASSIGNOR

Name: M. Vaallo in
Title: Director Finance
Dated: 04/24/15
MAQUET HOLDING B.V. & CO.KG

ASSIGNEE

Name: Thomas Seifermann
Title: CFO
Dated: 2015/04/24
MAQUET GMBH

SCHEDULE A

MARKS

Mark	Serial No.	GOODS/SERVICES
MAQUET	85754251	<p>IC 005: Pharmaceutical preparations, namely, medicated, anti-microbial, emulsions containing lipid based compositions having anti-desiccation and tissue lubricating properties for treating surgical and traumatic soft tissue wounds; pharmaceutical preparations, namely, medicated, anti-microbial, emulsions containing lipid based compositions having anti-desiccation and tissue lubricating properties for treating surgical and traumatic soft tissue wounds with additional therapeutic agents; vascular grafts; collagen coated vascular grafts for surgical use; collagen impregnated vascular grafts for vascular surgery; anticoagulant solutions; adhesive tapes for medical purposes in the nature of surgical tapes</p> <p>IC 006: Metal bottles in the nature of metal fluid storage tanks for gases for medical purposes mounted on mobile carriers; retaining fixtures in the nature of bar hangers, mounts, support arms and stands all made of metal for lamps and lights intended for medical purposes; support structures in the nature of metal beams, prefabricated wall and ceiling elements in the nature of wall panels and ceiling panels made of metal for prefabricated operating theatres; Metal storage tanks mounted on mobile carriers; stands, support arms and retaining fixtures in the nature of bar hangers all made of metal for lamps and lights intended for medical purposes; wall panels, ceiling panels and support beams all made of metal for prefabricated theatres; copper pipe system</p> <p>IC 007: Centrifugal pumps</p> <p>IC 009: Breathing apparatus except those for artificial respiration, namely, rebreathers and soda lime cartridges; equipment for the recording, storing, processing, indicating and displaying of data, namely, computer software and computer hardware for use in recording, storing, processing, indicating and displaying of data; electronic, electromechanical and pneumatic controls for operating surgical and medical instruments and apparatus; apparatus for recording, processing, transmission, storage, documentation and reproduction of sound or images; Electronic displays for the continuous monitoring of blood parameters; data processing devices, namely, computers for data processing; computer peripheral devices; computer hardware; Blank magnetic data carriers; Blank optical data carriers; computer touch screens; microscopes; downloadable electronic publications in the nature of brochures and manuals in the field of health; computer hardware and software for recording, transmitting and reproducing sound, images and/or texts; adapters, electric cables as well as computer network interface devices and computer programs for providing data connections and/or signal connections between, controlling and monitoring the aforementioned devices, in particular between cameras, video devices, audio devices, data processing devices, illumination devices, climate control devices, medical imaging devices, operating tables and/or medical devices; computer hardware and software for use in operating rooms for data management</p> <p>IC 010: Heart-lung machines; medical devices, namely, tissue sealing, tissue transection, and tissue closure apparatus; computer software and computer software</p>

TRADEMARK

REEL: 005548 FRAME: 0844

Mark	Serial No.	GOODS/SERVICES
		<p>stored on data carriers all for use with medical equipment and apparatus; medical imaging apparatus in the nature of cameras for medical use; remote control devices for operating tables; electrical control devices for operating tables; remote controlled equipment for moving operating tables; remote control devices for medical apparatuses to treat patients; electrical control devices for medical apparatuses to treat patients; remote controlled equipment for moving medical equipment; Electronic device for controlling medical imaging apparatuses, namely, ultrasound imaging apparatuses, radiological imaging apparatuses, natural-light based imaging apparatuses and diagnostic imaging apparatuses; sterilizer units for medical and surgical instruments and equipment; lighting apparatus for medical purposes, namely, surgical lights; medical devices in the nature of medical reduction valves for reducing the pressure of medical gases in gas bottles; medical ventilators, and anesthesia delivery systems; ceiling-mounted, wall-mounted or floor-mounted service units specially adapted for medical purposes, for feeding electricity to medical apparatus and/or for transferring signals and/or data to and from medical apparatus; ceiling-mounted, wall-mounted or floor-mounted service units specially adapted for medical purposes, comprising racks provided with sockets, plugs and fittings for mounting medical apparatus, for supplying signals and/or data to medical apparatus, and for transferring signals and/or data from medical apparatus; implants made of artificial materials; orthopaedic articles, namely traction devices and patient positioning devices for use with a surgical table for medical use; operating tables and parts therefore. medical accessories for and specifically adapted for use with operating tables, namely, head rests, arm rests, leg rests, body supports, body cushions, body straps and restraints, knee crutches, stirrups, tube holders, infusion stands, radial setting clamps, anesthesia screens, instrument trays, table extenders, secretion basins, splash guard covers, paper roll holders, side rails, PVC protective covers, x-ray cassette holders, image intensifiers; tables and chairs for the examination and treatment of patients as well as medical accessories specially adapted for use in connection with tables and chairs for the examination and treatment of patients, namely, head rests, arm rests, leg rests, body supports, body cushions, body straps and restraints, knee crutches, stirrups, tube holders, infusion stands, radial setting clamps, anesthesia screens, instrument trays, table extenders, secretion basins, splash guard covers, paper roll holders, side rails, PVC protective covers, x-ray cassette holders, image intensifiers; patient stretchers and patient hospital beds; transfer units for transferring patients from or onto a bed, namely, invalid lifts; Medical device, namely, a patient lifting apparatus. equipment to be attached to operating tables and intended for supporting, fixing and aligning limbs, namely, head rests, arm rests, leg rests, body supports, body cushions, body straps and restraints, knee crutches, stirrups, support arms for supporting, carrying and aligning medical devices and medical accessories, namely, tube holders, infusion stands, radial setting clamps, anaesthesia screens, instrument trays, table extenders, secretion basins, splash guard covers, paper roll holders, side rails, PVC protective covers, x-ray cassette holders, image intensifier, all specially adapted for use with operating tables; auxiliary means for supporting patients and/or for alleviating decubitus prophylaxis, namely, patient repositioning devices and positioning aids in the nature of patient support pads, mats, cushions and inflatable cells; medical heating mats for supporting patients; medical devices for the monitoring and measuring of body functions of patients; insufflators for medical purposes, namely, surgical apparatus and instruments used to blow air, gas or other fluids into a body cavity; respirators for artificial respiration; anesthesia devices, namely, anesthesia machines for use in patient care, respiration masks, dosage devices</p>

Mark	Serial No.	GOODS/SERVICES
		<p>and flow measuring devices for respiration and anaesthesia gases, and devices for medical purposes for the analysis and determination of the concentration of respiration and anaesthesia gases, namely, drug delivery devices and systems; humidifiers and nebulizers for medical respiration therapy purposes; heart-lung monitoring machines and parts therefore; hyperthermia devices; hypothermia devices including fluid circuits for heating and/or cooling patients; oxygenators for medical purposes; containers for liquids and gases for medical purposes. pumps for medical purposes for the transport of body fluids; suction pumps for surgical, bronchial and drainage suction; secretion containers, tubes, filters and closures for suction and for the administration of oxygen all for medical purposes; blood filters, blood concentrators being medical devices; heat exchangers for medical purposes; catheters and cannulae; medical purpose-made tubes, tube connectors and valves for medical devices; medical blood pressure measuring instruments; medical mammaria retractors; stents; medical supply tubes, namely, drainage tubes, bypass machine tubes, and ventilator tubes all for medical purposes; surgical compressors; containers for receiving medical waste materials; medical purpose-made lines for medical apparatus; flow measuring devices for medical purposes, namely, patient monitors for critical care for use in connection with ventilators, anesthesia systems and bypass machines; devices for the mobile administration of oxygen for medical purposes; furniture especially made for medical purposes, namely, surgical beds and gurneys; medical decontamination apparatus for the decontamination of operating table tops and operating table accessories, surgical containers and covers, furniture for operating theatres, surgical foot wear, transporters, transport trolleys, racks, and accessory stands used for carrying surgical equipment and accessories, namely, sterilization units; purpose-made ceiling-mounted support and maintenance units specially adapted for medical devices with connectors for supplying electricity to medical apparatus and for supplying and/or discharging or conducting, respectively, gases, liquids and/or signals to or from medical apparatus, respectively; medical operating lamps for medical purposes; medical imaging apparatus incorporating medical imaging software. stands and ceiling stands specially adapted for use in connection with medical apparatus and instruments; equipment carriers, in particular ceilingmounted carriers, wall-mounted carriers, floor-mounted carriers, carriers as accessories of patient beds, patient stretchers and operating tables specially adapted for use in connection with medical apparatus and instruments; ceiling-mounted, wall-mounted or floor-mounted holders and/or pivot arms and/or support arms specially adapted for mounting medical apparatus and devices, lamps, monitors and/or touchscreens, all for medical purposes; ceiling-mounted, wall-mounted or floor-mounted mounting arms and stands for mounting medical apparatus and devices, lamps, monitors and/or touchscreens, all for medical purposes; medical surgical devices, namely, hernia meshes, implantable surgical fabrics, adhesion barrier implants, surgical meshes and implantable patches for soft tissue repair; drug delivery and tissue repair materials, namely, panels made of surgical mesh; synthetic surgical implants, namely, vascular patches comprised of artificial material; synthetic implants for use in non-orthopedic prosthetic and vascular procedures in the field of soft tissue repair; synthetic membranes for use in non-orthopedic prosthetic and vascular procedures; implants consisting of artificial material for non-orthopedic tissue repair or reinforcement in sheets, tubes, coverings and balloons; endoluminal medical devices, namely, systems comprising endoscopic delivery catheters and endoscopic graspers; surgical instruments for the deployment and fixation of gastro-intestinal liners; synthetic grafts, namely, vascular grafts and aortic grafts; vascular graft tunnelers, tips</p>

Mark	Serial No.	GOODS/SERVICES
		<p>and extension rods and graft insertion devices; chest drains; closed wound drainage apparatus; IV pole attachments for chest drains; IV pole adapter mechanism; thoracic drainage collection and autotransfusion devices and tubing apparatus. blood collection bags for medical purposes sold empty; catheters; catheter introducers; tubing and blood access ports for haemodialysis; irrigation catheters; deployment instruments and sheaths for catheters, stents and grafts; flexible, removable, protective sheaths for catheters, vascular grafts, and other implantable devices; endovascular medical devices, namely, stents, catheters, medical spring guide wires and introducer sets; stents and stent deployment instruments, stent deployment catheters, all for tracheal, vascular, neuro, gastrointestinal or urological interventional surgeries; coronary stents; medical stents and catheters for the use in vascular procedures and synthetic vascular grafts; vascular grafts and stents, having an anti-coagulant coating; chest intervention kits, valves and catheters; air management valves for regulating air and gas flow for use in assisted respiration; medical and surgical equipment, namely, introducers and dilators; oxygen inhalators; house mark for a full line of medical and surgical apparatus and instruments for use in surgery, and parts therefor; medical ventilators for use in patient care; patient monitors for critical care and anesthesia; anesthesia masks; filters for medical purposes, namely, filters for anesthesia; medical devices used for continuous measuring of vital blood parameters during extracorporeal circulation; pediatric cannulae and catheters; wound suction devices for medical purposes; centrifugal pumps for medical and surgical use; coatings sold as an integral component of medical devices, namely extracorporeal circulation devices and instruments that come into contact with blood to increase the biocompatibility of the surfaces of extracorporeal circulation device and surgical devices. compact portable extracorporeal circulation devices and systems for medical use comprising oxygenators, blood pumps, bubble traps, and tubing; cardioplegia heat exchangers for medical use; pumps or tubing for use in blood perfusion; venous hardshell cardiotomy reservoirs in the nature of medical containers for blood, sold empty; medical device for regulating the applied vacuum during vacuum assisted drainage for cardiovascular procedures; medical devices for facilitating regulation of both patient and cardioplegia temperature; blood temperature control devices for medical purposes; cardiovascular fabrics in the nature of carotid patches, cardiovascular implants and vascular implants for use in cardiovascular surgery; textile vascular graft for artery replacement or repair; synthetic surgical implants, namely patches and vascular grafts comprised of artificial material; heart stabilization devices for use in vascular and cardiovascular surgery; heart positioning devices for use in vascular and cardiovascular surgery; clampless proximal anastomosis devices; blowers and misters for surgical procedures; coronary shunts; pressure controlling distension syringes for medical use; endoscopic vessel harvesting devices; workstations specially adapted for the carrying, positioning and/or supplying of medical, medical diagnostic, and/or surgical apparatus, comprised of telescopic poles for drip bags and pumps, transfer clamps, bed interfaces and pendant adaptors, bed adaptors used to enable transfer of a complete set of a patient's infusion system. medical fixed distribution columns adapted for the carrying, positioning and/or supplying of medical, medical diagnostic, and surgical apparatus in the nature of columns containing flow meters for fluid intakes, height adjustable supporting shelves, fitting drawer, monitor support arms, separating curtain designed for medical use, and lighting; ceiling service units, dome lights and operatory lighting lamps for operatory apparatus, all specially adapted for mounting medical apparatus, for feeding electricity to medical apparatus and for supplying signals and/or liquids and/or gases to and transferring</p>

Mark	Serial No.	GOODS/SERVICES
		<p>signals and/or liquids and/or gases from medical apparatus; patient carriers, namely, medical stretchers and gurneys. accessories used in the fields of orthopedics, traumatology, gynaecology, urology and neurosurgery, all specially adapted for use with surgical instruments, namely, stands and adaptors for surgical instruments, adapter clamps, axilla supports, back plates, buttock supports, foot plates, traction boots, condyle fixation for precise knee restraint, countertraction posts, device for minimally invasive hip endoprosthesis, elbow supports, elongation arms, extension devices, plates and shoes, foot plate mounts, guiding bars, guiding roller for head-side traction, head supports, humerus positioning devices, leg plate clamps, leg plates, meniscus positioning devices, padded rolls for countertraction posts, pelvise plaster cast devices, peineal supports, positioning devices for spinal surgery, rotating and tilting clamps, screw tension devices, seat plate extensions, shoulder modules, sitting brackets with pelvic support, sliding clamps, spinal device adapters, terrycloth covers, traction bars, traction boots, traction stirrup clamps, universal supports, upper arm positioning plates, vacuum inlays, secure hand restraints for medical patients, calf crutches, leg holders, knee crutches, motor-operated joint modules, padded plates, seat plate extensions, transfer boards, transfer board pads, drainage sets, urology seat plates, connection brackets and clamps, disposable pins, hand supports, head plates, head plate adapters, horseshoe head rests, reusable pins, skull clamps, skull clamp holders, spinal device adapters, standard holders, transition pieces, wrist supports, patient positioning aids; intra-aortic balloon catheters; intra-aortic balloon pumps; suture free stabilization devices adhesively secured to a patient and adapted for use with for intra-aortic balloon catheters and percutaneous sheath introducers for medical use. bracket system and ceiling supply system specially adapted for the carrying, positioning and/or supplying of medical, medical diagnostic, and surgical apparatus, comprised of arms for supporting medical, medical diagnostic and surgical apparatuses</p> <p>IC 011: Extraction valves for central gas supply installations for the supply of gases for medical purposes; lighting, heating, cooling, drying, ventilation, climate control and air conditioning equipment and systems for surgical or medical practices as well as sanitary prefabricated operating theatres having an integrated operating system for controlling, monitoring, documenting and connecting medical apparatuses, instruments, devices, equipment and systems; lighting installations consisting of lighting apparatus and lighting equipment; supervision tableaus, media bridges, media coded extraction points which are embedded in walls, ceiling service units, media bridges and hospital wards installation units; central gas supply systems for medical gasses and vacuum for hospitals and medical facilities comprised of electric, electronic, mechanic and electromagnetic switching installations for supplying gases and vacuum and vacuum production systems and compressors for the generation of compressed air and vacuum; devices for the processing of suction containers after their use, namely, emptying, purification and disinfection machines for suction containers for hospitals and medical facilities, with the exception of manually operated devices, in particular automatic emptying, purification and disinfection machines</p> <p>IC 012: Devices for the processing of suction containers after their use for the purpose of cleaning, disinfecting and sterilizing, namely, automatic emptying, purification and disinfection machines for suction containers for hospitals and medical facilities, excluding manually operated devices; Hospital carts</p>

Mark	Serial No.	GOODS/SERVICES
		<p>IC 037: Installation, maintenance, and repair of surgical, medical, and veterinary instruments and apparatus and of computers and computer peripherals; maintenance and repair of central gas supply installations; electric appliance installation and repair; machinery installation; consulting in the field of hospital construction</p> <p>IC 038: Electronic transmission of data, images and videos; video broadcasting services; transmission of data via video communication systems; streaming of video material on the Internet; communication services for carrying out video conferences, namely, transmitting streamed sound and audiovisual recordings via the Internet; video conferencing services</p> <p>IC 041: Education services, namely, courses of instruction and practical training in the use of surgical, medical, and veterinary instruments and apparatus as well as in the use of computers supporting the aforementioned apparatus; training services in the field of health and safety</p> <p>IC 042: Development, installation, updating and maintenance of data processing computer software; customization of data processing computer software; technical consulting services related to the development, installation, updating and maintenance of data processing software; leasing of data processing programs being computer software; leasing of computer hardware for use in data processing; technical consulting related to computer hardware development as well as hospital design services; technical consultancy in the field of engineering, namely, technical project planning for hospital room layout and organization; engineering services, namely, technical project planning; computer software consulting; technical product development consulting in the field of medical products; design, installation, copying, updating and maintenance of computer programs and computer software via the internet; remote programming of programmable controls for hybrid operating rooms and medical devices; updating of computer software used in connection with device controls and building services controls; operating of online-services, namely, IT consultancy by means of the provision of help desks for the users of devices and software; scientific research; industrial research in the field of medical products; consultancy in the design and development of computer hardware and software consultation as well as IT consultancy; industrial analysis of medical product and industrial research services in the field of medical products; design and development of computer hardware and computer software; design for others in the field of modular surgical workspaces, intensive care units, isolation rooms, emergency rooms and recovery rooms; Updating of computer software; quality control for others; rental of computer software; installation of computer software. installation of computer programs; consultation and support services, namely, computer programming and computer system analysis; maintenance of computer software; technical support regarding computer software, namely, troubleshooting of computer software problems; rental of computer hardware and computer peripherals; computer software consultancy; development of computer hardware and software; technical support regarding computer hardware, namely, troubleshooting in the nature of diagnosing computer hardware problems</p>
