TRADEMARK ASSIGNMENT

This TRADEMARK ASSIGNMENT (this "Assignment") is made and entered into as of August 17, 2015 ("Effective Date") by and between Campbell Technical, Inc., a California corporation with its principal office at 1625 Main Street, Suite 1011, Oakley, CA 94561 ("Assignor"), and DuroByte, Inc., a Michigan corporation having a place of business at 875 Foster Ave., Unit 101, Windsor N8X4W3, Canada ("Assignee", each of Assignor and Assignee a "Party", and collectively, the "Parties").

WHEREAS, Assignor has agreed in a Trademark Purchase and Assignment Agreement, dated August ____, 2015 (the "Agreement"), by and among Assignor and Assignee, to sell, assign, transfer, convey, grant, and deliver to Assignee: (a) all of Assignor's right, title, and interest in, to, and under the trademark DURABYTE, registered in the U.S. Patent and Trademark Office, Registration Number 2315961 on February 8, 2000, and all common-law rights associated therewith and all goodwill of the business associated therewith and symbolized thereby throughout the world (collectively, the "Mark"), and (b) all of Assignor's right, title, and interest in, to, and under the Mark, and all trademark, copyright, trade dress and similar rights, if any, incorporated in or protecting the Mark, including any logos or graphic elements included in the Mark (collectively, the "Assigned Property");

WHEREAS, Assignor is the sole owner of the Assigned Property; and

WHEREAS, Assignee has agreed in the Agreement to purchase from Assignor all of its right, title, and interest in, to and under said Assigned Property.

NOW, THEREFORE, for good and valuable consideration (including the premises and covenants set forth herein and in the Agreement), the receipt and sufficiency of which are hereby acknowledged, the Parties, intending to be legally bound, hereby agree as follows:

1. Assignor hereby sells, assigns, transfers, conveys, grants, and delivers to Assignee all of such Assignor's respective right, title, and interest in, to, and under the Assigned Property, together with the goodwill associated therewith, including all registrations, applications, and common law rights therefor in the United States and for all foreign countries, including any renewals and extensions of the registrations that are or may be secured under the laws of the United States and all foreign countries, now or hereafter in effect, for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns, or other legal representatives, as fully and entirely as the same would have been held and enjoyed by such Assignor if this assignment and sale had not been made, together with all income, royalties, or payments due or payable as of the time of this assignment or thereafter, including, without limitation, all claims for damages by reason of past, present, or future infringement or other unauthorized use of the Assigned Property, with the right to sue for and collect the same for Assignee's own use and enjoyment and for the use and enjoyment of its successors, assigns, or other legal representatives.
2. Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States and other empowered officials of the United States Patent and Trademark Office to transfer all registrations and applications for the Assigned Property to Assignee as assignee of

the entire right, title, and interest therein or otherwise as Assignee may direct, in accordance with this instrument of assignment, and to issue to Assignee all registrations which may issue with respect to any applications for a trademark or service mark included in the Assigned Property.

3. Assignor covenants and agrees that it will, upon the reasonable request of Assignee execute and deliver, or cause to be executed or delivered, any and all documents provided by Assignee that may be necessary or desirable to (a) effectuate the transfer of the Assigned Property to Assignee and the vesting of complete and exclusive ownership in Assignee of the Assigned Property, and/or (b) provide Assignee with evidence of Assignor's rights and priority in and Assignor's use of the Assigned Property prior to the Effective Date, in any judicial, opposition, or other proceedings in respect of the Assigned Property, including for revocation of any of Assignor's rights in the Assigned Property.

4. This Assignment shall be governed by and construed in accordance with the laws of the Commonwealth of Virginia applicable to agreements made and to be performed entirely within the Commonwealth of Virginia, without regard to its conflicts of law principles.

5. This Assignment may be executed by the Parties on any number of separate counterparts, by facsimile or email, and all of those counterparts taken together will be deemed to constitute one and the same instrument; signature pages may be detached from multiple separate counterparts and attached to a single counterpart so that all signatures are physically attached to the same document. A facsimile or portable document format (".pdf") signature page will constitute an original for the purposes of this Assignment.
