The database contains all recorded Trademark Assignment information from 1955 to the present. Trademark Assignments recorded prior to 1955 are maintained at the National Archives and Records Administration.

When relevant information is given to the USPTO to be recorded in the USPTO's assignment database, the USPTO simply puts the information on the public record and does not verify the validity of the information. Recordation is a ministerial function—the USPTO neither makes a determination of the legality of the transaction nor the right of the submitting party to take the action.
