RELEASE OF SECURITY INTEREST IN TRADEMARKS

This RELEASE OF SECURITY INTEREST IN TRADEMARKS, dated as of November 20, 2017 (this “Release”), is made by SUNTRUST BANK, a Georgia banking corporation, as administrative agent and as collateral agent for the Lenders (in such capacity, the “Agent”), in favor of the Grantors (hereinafter defined below), as follows:

W I T N E S S E T H :

WHEREAS, pursuant to that certain Intellectual Property Security Agreement between Agent and Grantors, dated as of May 14, 2014 (as may be amended, amended and restated or otherwise modified, the “Security Agreement”), the Grantors granted to the Agent a security interest in and to certain collateral, which was recorded with the United States Patent and Trademark Office on August 18, 2014 at Reel 5346 / Frame 0576;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Agent hereby agrees as follows:

1. Defined Terms. All capitalized terms used, but not otherwise defined herein, shall have the respective meanings ascribed in or otherwise referenced in the Security Agreement.

2. Release. The Agent, without representation or warranty of any kind, hereby releases, discharges, cancels and terminates all of its security interest in and continuing lien on the Collateral, including, without limitation, the trademarks and trademark registrations and applications listed on Schedule A attached hereto, and hereby re-assigns, re-transfers and re-conveys to Grantors any and all right, title or interest the Agent may have in and to the Collateral, together with all of the goodwill associated therewith.

3. Termination. The Agent, without representation or warranty of any kind, terminates and cancels the Security Agreement.

4. Further Assurances. Agent agrees to execute and deliver such further instruments and take or cause to be taken such other or further action as Grantors may reasonably request, at Grantors’ cost and expense, in order to perfect, confirm or evidence such release.

5. Governing Law. This Release shall be governed exclusively under the laws of the State of New York, without regard to conflicts of law or choice of law principles.

			<p>relating to computer security, for providing real-time Security Information Event Management (SIEM) for satellite networks for use in providing situational awareness across network and security devices; for providing real-time monitoring and recording and built-in alerting for use in protecting against insider threats, for providing cyber security hardware and software that passes secure information across classified and unclassified network domains, and for providing computer hardware and software combinations that reverse engineer internet protocol out of an RF link; cyber security software and software incorporating algorithms for use in harden system configuration against tampering</p> <p>42 - Computer security service, namely providing real-time Security Information Event Management (SIEM) for satellite networks for use in providing situational awareness across network and security devices</p>			

Service Descriptions

Description "A" - Engineering services; consulting in the fields of engineering for weapons systems development, information technology services, computer and telecommunications network engineering, and design and inspection of fire alarm system and sprinkler suppression systems; on-line system management services that allow users to remotely view, monitor, program, operate and control electrical systems, environmental, access and security systems in homes, offices and buildings

Description "B" - Engineering services; providing mission critical engineering and information technology services, namely, software application design, development, implementation and maintenance to meet customer needs, developing and implementing safeguards and controls for computer network security by restricting access to and by computer networks to and of undesired web sites, media and individuals and facilities, planning for continuing operations and disaster recovery for computer networks, administration of computer system networks in operations centers for the government, customizing computer software for email systems for the customer and application service provider, namely, hosting databases, all in the fields of military defense, intelligence, surveillance, reconnaissance, homeland security, weapon systems support and maintenance, avionics and space programs to governmental agencies; providing design, development and integration of computer networks; consulting in the fields of engineering for weapons systems development, information technology services primarily directed to military defense, intelligence, surveillance, reconnaissance, homeland security, weapon systems support and maintenance, avionics and space programs, computer and telecommunications network engineering and consulting services for enterprise solutions and integration, namely, design and inspection of fire alarm system and sprinkler suppression systems; on-line system management services that allow users to remotely view, monitor, program, operate and control electrical systems, environmental, access and security systems in homes, offices and buildings
