This Intellectual Property and Asset Assignment (the "Assignment"), effective on the last date signed below, is made by and between TAMKO Building Products LLC, with a principal place of business of 220 West 4th Street, Joplin, Missouri 64801 ("Assignor"); and Envision Building Products LLC, a Delaware limited liability company, with a principal place of business of 211 S Main, Suite 300, Joplin, MO 64801 ("Assignee").

Whereas, Assignor is the worldwide owner of the trademarks, inventions patented or not patented, trade secrets, domain names and related rights, agreements and assets in intellectual property (collectively "IP") and as further listed on Exhibits A, B and C;

Whereas, Assignor is the owner of the U.S. and foreign common law and registered trademarks, shown on Exhibit A (collectively the "Trademarks");

Whereas, Assignor is the owner of the U.S. and foreign patents shown on Exhibit B (collectively the "Patents");

Whereas, Assignor owns or has rights to the domain names as listed in Exhibit C (collectively the "Domain Names");

Whereas, Assignor wishes to sell and assign, and the Assignee wishes to purchase and assume all rights, title and interest in and to all IP and assets listed in Exhibits A, B and C, including the Patents, the Trademarks, the Domain Names, and all other IP;

Now therefore, in consideration of the mutual promises contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Assignor hereby assigns, transfers, and conveys to Assignee all of its rights, title, and interests in and to all IP and assets listed in Exhibit A, Exhibit B and Exhibit C, including but not limited to (a) the Patents, together with any and all provisionals, nonprovisionals, continuations, continuations-in-part, divisions, reissues, renewals, reexaminations, substitutes or extensions thereof, and including all rights to claim priority; (b) the Trademarks (together with all the goodwill of the business symbolized by the Trademarks); (c) the Domain Names and any associated registrations, including any renewals or extensions thereof; (d) all files, records, artwork, marketing materials, know-how, agreements and all other documentation (whether electronic or in paper form) exclusively related to the Patents, Trademarks, Domain Names or trade secrets; and (e) in and to all causes of action, either in law or in equity for past, present or future infringement or other violations thereof, and any and all royalties, fees, income, payments or other violations thereof, and any and all royalties, fees, income, payments or other proceeds now or hereafter due or payable with respect to any of the foregoing and in and to all rights corresponding to the foregoing throughout the world.

2. Assignor hereby authorizes the officials of corresponding entities or agencies in any applicable jurisdictions to record and register this Assignment upon request by Assignee. Following the date hereof, upon Assignee's reasonable request and at Assignee's sole cost and expense, Assignor shall take such steps and actions, and provide such cooperation and assistance to Assignee and its successors, assigns, and legal representatives, including the execution and

delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documents, as may be reasonably necessary to effect, evidence, or perfect the assignment of the assigned intellectual property to Assignee, or any assignee or successor thereto.

3. Within ten (10) days of execution of this Intellectual Property and Asset Assignment, Assignor will commence or cause the transfer of the Domain Names to Assignee and will provide all administrative rights to the Domain Names as may be required to take possession of and control the Domain Names. Assignor agrees to execute any further documents or take any reasonable further steps as Assignee may deem necessary to effectuate the transfer of the Domain Names to Assignee.

4. This Assignment is binding on, and inures to the benefit of, the parties and their respective parents, subsidiaries, affiliated companies, successors, licensees, assigns and other present or future parties in interest who are assigned or otherwise take ownership of the Patents, Trademarks and Domain Names.

5. Signatures to this Assignment transmitted by facsimile transmissions, by electronic mail in "portable document format" (".pdf") form, or by any other electronic means intended to preserve the original graphic and pictorial appearance of a document, will have the same effect as physical delivery of the paper document bearing the original signature. This Assignment may be executed in two or more counterparts, each of which shall be deemed an original, but all of which, when taken together, shall constitute one and the same instrument.

6. Assignor authorizes the United States Commissioner for Patents and Trademarks to record and register this Assignment upon request by Assignee.

7. Assignor agrees to execute all documents, assist in all proceedings and take any reasonable further steps as Assignee may deem necessary (at the sole cost and expense of Assignee) to effectuate the transfer of the Trademarks and other IP, or in the perfection, registration, or recordation of the rights of the Assignee thereto, as Assignee may deem appropriate.
