INTELLECTUAL PROPERTY SECURITY AGREEMENT

This Intellectual Property Security Agreement (the "Agreement") is entered into as of February 27, 2020 by and between ShaveLogic, Inc., a Texas corporation ("Debtor") and NFS Leasing, Inc., a Massachusetts corporation ("Secured Party").

RECITALS

Secured Party has agreed to make certain advances of money and to extend certain financial accommodations to Debtor in connection with (i) a certain Master Equipment Lease Number 2020-0206 of even date; (ii) a certain Interim Financing Loan Agreement of even date; (iii) a certain Security Agreement (the "Security Agreement") of even date; and (iv) certain Subordination Agreements of even date ((i) -- (iv), together with this Agreement, the "Loan Documents"). Capitalized terms used herein are used as defined in the Loan Documents. Pursuant to the terms of the Loan Documents, Debtor has granted to Secured Party a security interest in all of its assets, including its intellectual property.

NOW, THEREFORE, Debtor agrees as follows:

AGREEMENT

To secure its obligations under the Loan Documents and under any other agreement now existing or hereafter arising between Debtor and Secured Party, Debtor grants to Secured Party a security interest in all of Debtor's right, title, and interest in all of its Intellectual Property (including without limitation those Patents, and Trademarks listed on Schedule A hereto), in accordance with the terms of the Loan Documents, and all proceeds thereof (such as, by way of example but not by way of limitation, license royalties and proceeds of infringement suits), the right to sue for past, present and future infringements, all rights corresponding thereto throughout the world and all re-issues, divisions continuations, renewals, extensions and continuations-in-part thereof. Debtor represents and warrants that Schedule A attached hereto sets forth any and all intellectual property rights in connection to which Debtor has registered or filed an application with either the United States Patent and Trademark Office or any other agency of any state or country responsible for the registration of any patent, trademark, or similar protection, as applicable. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute the same instrument.
