**Intellectual Property Assignment Agreement**

This INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (this “Assignment”) is made and entered into effective as of August 10, 2021 (“Effective Date”), by and between SL IP Intermediate LLC, a Delaware limited liability company (“Assignor”), and SL IP Company LLC, a Delaware limited liability company (“Assignee”).

**WHEREAS**, Assignor is a wholly-owned subsidiary of Shavelogic, Inc., a Texas corporation (the “Company”), and the Company is engaged in the design, manufacture, sale and distribution of razors (such activities, the “Business”);

**WHEREAS**, pursuant to that certain Intellectual Property Assignment Agreement, dated as of the date hereof, by and between the Company, as assignor, and Assignor, as assignee, Assignor is the owner of all rights, title and interest in and to the following: (1) the patents, patent applications and patent disclosures set forth in the attached Schedule A, as well as any continuations, continuations-in-part, divisionals, counterparts, parents, provisionals, non-provisionals, substitutes, renewals, continued examinations, reissues, reexaminations, and extensions that are owned, licensable or controlled by Assignor on or after the Effective Date, and all patents or patent applications claiming priority to any of the foregoing patents or applications that are owned, licensable or controlled by Assignor on or after the Effective Date (the “Patent Rights”); (2) the names, marks, trademarks, service marks, trade names, logo(s), and/or designs set forth in the attached Schedule B, as well as the trademark registrations therefor, in connection with the various goods and services set forth in such registrations and as used at common law, together with the goodwill of the business symbolized thereby (hereinafter, collectively the “Marks”); (3) the domain names and subdomains set forth in the attached Schedule C (the “Domain Names”); and (4) all other intellectual property rights, including inventions, ideas, copyrights, trade secrets, and industrial and other protected designs used in the Business whether or not registered, applied for, or unregistered (together with the Patent Rights, Marks and Domain Names, the “Assigned IP”); and

**WHEREAS**, Assignor desires to assign to Assignee all of Assignor’s right, title and interest in and to the Assigned IP.

**NOW, THEREFORE**, in consideration of the foregoing recitals, the mutual covenants and conditions contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, accepted and confirmed, Assignor and Assignee hereby agree as follows:

1. Effective as of 12:03 p.m., Dallas, Texas time, on the Effective Date, Assignor hereby irrevocably assigns, transfers, grants, sets over, and conveys to Assignee, its successors, assigns, and/or designees, without reservation of any rights, title or interest, Assignor’s entire worldwide and universal rights, title and interest that exist today and may exist in the future in and to (a) the Assigned IP and (b) all past, present and future claims, demands and/or causes of action (whether currently pending, filed, or otherwise), both at law and in equity, and other enforcement actions (including, without limitation, all rights to damages, injunctive remedies and relief, and other remedies of any kind for past, current and future infringement) and all rights to collect royalties (other than royalties or other payments due under agreements entered into by Assignor and third parties prior to the date of this Assignment), damages and profits, due or accrued, relating to any of the foregoing, including the right to sue and recover for, and the right to profits and damages, due or accrued, arising out of or in connection with, any and all past, present and/or future infringements, dilutions, unfair competition, likelihood of confusion, or any other violation or unlawful act relating to the Assigned IP, if any. The assignment of the Assigned IP also includes all documents related to the conception, diligence and reduction to practice of the inventions disclosed in the Assigned IP and all domestic and international patent filing documents.

2. Assignor hereby authorizes and requests the Director of the U.S. Patent and Trademark Office and any official of any other country whose duty it is to issue patents on the applications included in the Patent Rights, to issue all letters patent, patents, certificates of invention, utility models or other governmental grants or issuances for the inventions disclosed therein to Assignee, its successors and assigns, as the assignee to the entire interest therein.
3. Assignee hereby accepts the assignment granted to it in Paragraph 1 above simultaneously with such assignment.
4. Assignor shall provide any further assistance necessary to effect the assignment of all rights, title and interest in and to the Assigned IP to Assignee, including but not limited to, the execution of any further or additional documents and instruments, and take such other actions as may be necessary or reasonably requested by Assignee to document, perfect or record the assignment and transfer to Assignee, enable Assignee to secure, register, maintain, enforce and otherwise fully protect its rights in and to the Assigned IP, or otherwise carry out the intent of the parties as reflected in this Assignment, all without further consideration. Specifically, with respect to the Domain Names, Assignor shall provide Assignee with all transfer authorization codes and other information necessary for Assignee to acquire, access and fully control the Domain Names. In the event that any of the Domain Names come due for any renewals prior to the transfer of such Domain Names to Assignee, Assignor shall reasonably cooperate with Assignee's reasonable requests to renew such Domain Names to ensure that they do not fall into the public domain.
5. The terms and conditions of this Assignment will inure to the benefit of Assignee, its successors, assigns, and other legal representatives and will be binding upon Assignor, its successors, assigns, and other legal representatives.
6. The Assigned IP is conveyed subject to any and all licenses, permissions, consents or other rights that may have been granted by Assignor or its predecessors-in-interest with respect thereto prior to the Effective Date.
7. This Assignment shall be governed by the laws of the State of Delaware, without application of any conflicts of law principles.
8. Each party hereby represents that its undersigned representative is authorized and legally competent to execute this Assignment as a binding and enforceable agreement. This Assignment may be executed in any number of counterparts, each of which will be deemed an original, but all of which together constitute one and the same original. A facsimile, pdf or digital signature shall be deemed an original.
