**INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT**

THIS INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (this “Assignment”) is made and entered into as of October 25, 2021 by and between Anlin Industries (“Assignor”), and Western Window Holding LLC (“Assignee”). Assignor and Assignee are each hereinafter referred to as a “Party,” and collectively, as the “Parties.” All capitalized terms used, but not defined herein, shall have the meanings ascribed to such terms in the Purchase Agreement (defined herein below).

**RECITALS**

**WHEREAS**, Assignor and Assignee have entered into that certain Asset Purchase Agreement, dated as of September 1, 2021 (the “Purchase Agreement”), pursuant to which, on the terms and subject to the conditions set forth in the Purchase Agreement, Assignor has agreed to sell to Assignee and Assignee has agreed to purchase from Assignor all of Assignor’s right, title and interest in, to and under the Business Owned Intellectual Property Rights, including the Business Owned Intellectual Property Rights set forth on Exhibit A hereto (the “Assigned IP Assets”); and

**WHEREAS**, in connection with the transactions contemplated by the Purchase Agreement, Assignor desires to convey, assign and transfer to Assignee, and Assignee agrees to purchase, acquire and accept all of Assignor’s right, title and interest in, to and under all of the Assigned IP Assets.

**NOW, THEREFORE**, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and as more fully set forth in the Purchase Agreement and subject to the terms and conditions therein, the Parties, intending to be legally bound, hereby agree as follows:

**1. Transfer of Assigned IP Assets.** Assignor hereby irrevocably assigns, conveys and transfers to Assignee and its successors and assigns, and Assignee hereby purchases, acquires and accepts, all of Assignor’s right, title and interest in, to and under the Assigned IP Assets throughout the universe and all rights corresponding thereto, free and clear of all Liens, together with all goodwill appurtenant to any Trademarks included in the Assigned IP Assets, and all benefits, privileges, causes of action, common law rights, and remedies relating thereto throughout the world, including, without limitation, all of Assignor’s rights to: (a) apply for and maintain all registrations, renewals and/or extensions of the Assigned IP Assets, (b) claim priority under any local or national law or international convention with respect to the Assigned IP Assets, (c) sue, counterclaim and otherwise bring actions and recover damages, payments, restitution, and injunctive and other legal or equitable relief for past, present, and future infringement, misappropriation, dilution or other violation of the Assigned IP Assets, and rights to protection of interests therein under the Applicable Laws of all jurisdictions, (d) grant licenses or other interests in or to the Assigned IP Assets and (e) royalties, fees, income, payments, and other proceeds now or hereafter due or payable to Assignor with respect the such Assigned IP Assets.

**2. Recordation.** Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks, the Register of Copyrights of the United States, and any other applicable governmental entity or registrar (including any applicable foreign or international office or registrar), to record Assignee as the owner of the applicable Assigned IP Assets, and to issue any and all such Assigned IP Assets to the applicable Assignee, as assignee of the entire right, title and interest in, to and under the same, for the sole use of Assignee, its successors, assigns or other legal representatives. Assignee shall have the right to record this Assignment with all applicable government authorities and registrars so as to perfect its ownership of the applicable Assigned IP Asset, and Assignor agrees to cooperate with Assignee upon Assignee’s reasonable request to effect such recordations.

**3. Electronic Transfer, Transfer Forms.** Assignor shall cooperate with Assignee, at Assignor's cost, to promptly transfer the domain names and social media accounts included in the Assigned IP Assets (including those listed on Exhibit A) electronically from Assignor's account to Assignee's account (such that Assignee will be listed as the registrant of any such domain names in the WHOIS database) and Assignor shall deliver all passwords, authorization codes or similar information necessary to transfer to Assignee all such domain names and social media accounts.

**4. Further Assurances.** Assignor shall provide Assignee, its successors, assigns or other legal representatives, reasonable cooperation and assistance at Assignee's request and expense (including the execution and delivery of any and all affidavits, declarations, oaths, exhibits, assignments, powers of attorney or other documentation as may be reasonably required) as are reasonably requested by Assignee to effect, register, or maintain the rights assigned herein, including in connection with: (a) the preparation and prosecution by Assignee of any applications or registrations assigned herein; and (b) the prosecution or defense by Assignee of any interference, opposition, reexamination, reissue, infringement or other proceedings that may arise in connection with any of the rights assigned herein, including, but not limited to, testifying as to the fact of the assignment of rights hereunder. In the event that Assignor fails to execute such documentation or take such actions within ten (10) days after a written request, Assignor hereby irrevocably appoints Assignee with full and complete authority and power of attorney to act in the stead of Assignor, as Assignor's attorney in fact, to execute and record such documentation or take such actions.

**5. No Modification.** Nothing contained in this Assignment is intended to or shall be deemed to modify, alter, amend, supersede or otherwise change any of the representations, warranties, covenants or other rights or obligations of the Parties under the Purchase Agreement.

**6. Successors and Assigns.** This Assignment shall inure to the benefit of and be binding upon the Parties and their respective successors and permitted assigns.

**7. Counterparts; Facsimile.** This Assignment may be executed and delivered by facsimile or electronic signature and in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Counterparts may be delivered via facsimile, electronic mail (including pdf) or other transmission method and any counterpart so delivered shall be deemed to have been duly and validly delivered and be valid and effective for all purposes.

**8. Governing Law.** This Assignment shall be governed by and construed in accordance with the internal laws of the State of California, without regard to the principles of conflicts of laws that would make the laws of another state applicable.
