## CONFIRMATORY INTELLECTUAL PROPERTY ASSIGNMENT

WHEREAS, **Becton, Dickinson and Company**, a New Jersey corporation, with a place of business at 1 Becton Drive, Franklin Lakes, New Jersey 07417 ("Assignor"), is the listed owner of certain patents and patent applications, trademarks and service marks, and domain name registrations and other internet properties, defined below ("Assigned IP");

WHEREAS, **Embecta Corp.**, a Delaware corporation, with a place of business at 200 Bulfinch Drive, Andover, MA 01810 ("Assignee," and together with Assignor "the Parties"), has acquired the entire right, title and interest in and to the Assigned IP, pursuant to the Separation and Distribution Agreement dated as of March 31, 2022 (the "Separation and Distribution Agreement");

WHEREAS, pursuant to the Separation and Distribution Agreement, Assignor has agreed to convey, transfer, assign and deliver to Assignee all of Assignor's right, title and interest in and to the Assigned IP;

WHEREAS, by this Confirmatory Intellectual Property Assignment ("IP Assignment"), Assignor and Assignee now wish to confirm the conveyance, transfer, and assignment of the Assignor's right, title and interest in and to the Assigned IP to Assignee effective as of March 31, 2022 ("Effective Date");

NOW THEREFORE, the Parties agree as follows:

1. Assignment. In consideration for the execution of the Separation and Distribution Agreement, the payment of the consideration stipulated in the Separation and Distribution Agreement and other good and valuable consideration, the receipt and sufficiency are hereby acknowledged, Assignor hereby irrevocably conveys, transfers, and assigns to Assignee, and Assignee hereby accepts, all of Assignor's right, title, and interest in and to the following Assigned IP:

(a) the patents and patent applications set forth in Schedules 1A and 1B hereto and all related patents and patent applications in all countries that claim priority to such patents or patent applications or to which such patent or patent applications claim priority, utility models, statutory invention registrations, certificates of invention, registered designs, utility models and similar or equivalent rights in inventions and designs, and all rights therein provided by international treaties or conventions, including, without limitation, all issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations, and renewals thereof, (the "Patents");

(b) the trademark and service mark registrations and applications set forth in Schedules 2A and 2B hereto (collectively, the "Trademarks"), together with the goodwill appurtenant to any such registrations and applications; provided further that, Assignee is the successor to Assignor's diabetes care business as set forth in the Separation and Distribution Agreement, and the transfer of the United States intent-to-use trademark applications set forth on Schedule 2A hereto, accompanies, pursuant to the

Separation and Distribution Agreement, the separation from Assignor of the diabetes care business, or that portion of the business, to which the Trademarks pertain, and that business is ongoing and existing;

(c) the internet domain name registrations including all uniform resource locators, sub-domain names and extensions thereof and thereto, and Internet Protocol addresses, social media accounts or "handles" with Facebook, LinkedIn, Twitter and similar social media platforms, handles, and other names, identifiers, and locators associated with Internet addresses, sites, and services, as set forth on Schedule 3 (the "Internet Properties");

2. Recordation and Further Actions. Assignor hereby authorizes the Commissioner for Patents, the Commissioner for Trademarks any other governmental officials of any country or countries foreign to the United States, to record and register this IP Assignment upon request by Assignee. Following the date hereof, upon request from Assignee, Assignor shall promptly take such steps and actions and provide cooperation and assistance to Assignee, including the execution of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documents, files, registrations, and similar items, to effect, evidence, perfect or otherwise ensure that the Assigned IP is properly assigned to Assignee.

3. Terms of the Separation and Distribution Agreement. The terms of the Separation and Distribution Agreement, including, but not limited to, the representations, warranties, covenants, agreements, and indemnities relating to the Assigned IP are incorporated herein by this reference. The Parties hereto acknowledge and agree that the representations, warranties, covenants, agreements, and indemnities contained in the Separation and Distribution Agreement shall not be superseded hereby but shall remain in full force and effect to the full extent provided therein. In the event of any conflict or inconsistency between the terms of the Separation and Distribution Agreement and the terms hereof, the terms of the Separation and Distribution Agreement shall govern.

4. Counterparts. This IP Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this IP Assignment delivered by facsimile, e-mail or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this IP Assignment.

5. Governing Law. Except to the extent that federal law pre-empts state law with respect to the matters covered herein, this IP Assignment shall be governed by and construed in accordance with the internal laws of the State of Delaware without giving effect to any choice or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction).
