WHEREAS, Assignee desires to acquire all of Assignor's right, title, and interest in and to the Intellectual Property, together with the goodwill of the business connected with the use of and symbolized by certain portions of the Intellectual Property.

NOW, THEREFORE, in consideration of the foregoing and the mutual promises, covenants, and conditions contained herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound hereby, Assignor and Assignee hereby agree as follows:

1. Intellectual Property. For the purposes of this Agreement, "Intellectual Property" means any and all rights in, arising out of, or associated with any of the following in any jurisdiction throughout the world: (a) issued patents and patent applications (whether provisional or non-provisional), including divisionals, continuations, continuations-in-part, substitutions, reissues, reexaminations, extensions, or restorations of any of the foregoing, and other indicia of invention ownership (including certificates of invention, petty patents, and patent utility models) ("Patents"); (b) trademarks, service marks, brands, certification marks, logos, trade dress, trade names, and other similar indicia of source or origin, together with the goodwill connected with the use of and symbolized by, and all registrations, applications for registration, and renewals of, any of the foregoing ("Trademarks"); (c) copyrights and works of authorship, whether or not copyrightable, and all registrations, applications for registration, and renewals of any of the foregoing ("Copyrights"); (d) internet domain names and social media account or user names, including "handles", whether or not Trademarks, all associated web addresses, URLs, websites and web pages, social media sites and pages, and all content and data thereon or relating thereto, whether or not Copyrights; (e) industrial designs, and all Patents, registrations, applications for registration, and renewals thereof; (f) trade secrets, know-how, inventions (whether or not patentable), discoveries, improvements, technology, business and technical information, databases, data compilations and collections, tools, methods, processes, techniques, recipes, developments, processes, research, proposals, materials, and other confidential and proprietary information and all rights therein ("Trade Secrets"); (g) computer programs, operating systems, applications, firmware and other code, including all source code, object code, application programming interfaces, data files, databases, protocols, specifications, and other documentation thereof; and (h) all other intellectual or industrial property and proprietary rights. The parties acknowledge and agree that "Intellectual Property" shall further include, without limitation, any and all Intellectual Property identified in Exhibit A attached hereto and incorporated herein by reference, which may be amended from time to time by mutual agreement of the parties.

2. Assignment. Assignor hereby irrevocably conveys, transfers, and assigns to Assignee, and Assignee hereby acquires from Assignor, all of Assignor's right, title, and interest in and to the following: (a) the Intellectual Property; (b) all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world; (c) any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and (d) any and all claims and causes of action with respect to any of the foregoing, whether accruing before, on, and/or after the Effective Date, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or default, with the right, but not the obligation, to sue for such legal and equitable relief, and to collect, or otherwise recover, any such damages.
