## INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (“IP Assignment”), dated as of March 19, 2020, is made by and between Plantronics, Inc., a Delaware corporation (“Assignor”), and Nacon S.A., a French *societe anonyme* (“Assignee”), the purchaser of certain assets of Assignor pursuant to that certain Asset Purchase Agreement, dated as of January 31, 2020, by and between Assignee and Assignor (the “Purchase Agreement”). Capitalized terms not otherwise defined herein will have the meanings given to them in the Purchase Agreement.

WHEREAS, pursuant the terms of the Purchase Agreement, Assignor has conveyed, transferred, and assigned to Assignee, among other assets, rights, title, and interest in and to certain intellectual property of Assignor, and has agreed to execute and deliver this IP Assignment, for recording with the United States Patent and Trademark Office, the United States Copyright Office and corresponding entities or agencies in any applicable jurisdictions.

NOW THEREFORE, the parties agree as follows:

1. Assignment. For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby irrevocably conveys, assigns and transfers to Assignee, and Assignee hereby accepts, all of Assignor’s right, title and interest in and to the following (the “Assigned IP”):

(a) the patents and patent applications set forth on Schedule 1 hereto and all issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations and renewals thereof (the “Patents”);

(b) the trademark registrations and trademark applications set forth on Schedule 2 hereto and all issuances, extensions and renewals thereof (the “Trademarks”), together with the goodwill of the business connected with the use of, and symbolized by, the Trademarks; provided that, with respect to any United States intent-to-use trademark applications set forth on Schedule 2 hereto, the transfer of such applications accompanies, pursuant to the Purchase Agreement, the transfer of Assignor’s business, or that portion of the business to which the trademark pertains, and that business is ongoing and existing;

(c) the domain names set forth on Schedule 3 hereto;

(d) any other intellectual property set forth on Schedule 4 hereto; and

(e) all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world, including any and all past, present, and future filings, applications, continuations, divisions, renewals, and extensions thereof or associated therewith, and any and all registrations of the foregoing throughout the world, and any and all past, present and future common law rights associated with or arising in connection with any of the foregoing throughout the world, together with all of the retained goodwill.

2. Recordation and Further Actions. Assignor hereby authorizes the Commissioner for Patents and the Commissioner for Trademarks in the United States Patent and Trademark Office, the Register of Copyrights in the United States Copyright Office and the officials of corresponding entities or agencies in any applicable jurisdictions to record and register this IP Assignment upon request by Assignee. Following the date hereof, upon Assignee's reasonable request, Assignor shall take such steps and actions, and provide such cooperation and assistance to Assignee and its successors, assigns and legal representatives, including the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney or other documents, as may be necessary to effect, evidence or perfect the assignment of the Assigned IP to Assignee, or any assignee or successor thereto.

3. Representations and Warranties. Except as set forth in the Purchase Agreement, Assignor makes no representations or warranties, express or implied, with respect to the Assigned IP, and Assignor expressly disclaims any implied warranties.

4. Further Assurances. At any time and from time to time following the Closing, as and when requested by any party and without further consideration, and upon the terms and subject to the conditions as set forth in the Purchase Agreement, each party shall execute and deliver such other assignments, new contracts, bills of sale, transfers and other instruments of conveyance and will do such other acts as reasonably requested to evidence and effectuate the consummation of the transactions contemplated by the Purchase Agreement, this IP Agreement and the recordal of Assignee as the assignee and owner of Assigned IP.

5. Relationship to Purchase Agreement. This IP Assignment is executed and delivered to implement, and not to modify, the Purchase Agreement, without recourse and without representation or warranty, whether express, implied or created by operation of law, except as provided in the Purchase Agreement. Assignor and Assignee acknowledge and agree that neither the representations or warranties nor any of the rights, obligations or remedies of any party under the Purchase Agreement shall be deemed to be modified or altered in any way by this IP Assignment. If any of the provisions hereof are in conflict with the provisions of the Purchase Agreement, the Purchase Agreement shall control.
