## TRADEMARK ASSIGNMENT

This Trademark Assignment (this "Assignment") is made and entered into as of December 22, 2022 ("Effective Date") by and between Centura Brands Inc., a Ontario corporation ("Assignor"), and Pacific World Corporation, a California corporation ("Assignee").

**WHEREAS**, Assignor and Assignee are parties to that certain Asset Purchase Agreement dated as of December 22, 2022 (the "Purchase Agreement");

**WHEREAS**, pursuant to the Purchase Agreement, Assignor wishes to assign to Assignee, and Assignee wishes to acquire from Assignor, the United States trademark registrations, foreign trademark registrations, and unregistered trade names and trademarks identified on Exhibit A, together with the goodwill of the business associated therewith (collectively, the "Marks"); and

**WHEREAS**, Assignee is a successor to that part of Assignor's business to which the Marks pertain, and that business is ongoing and existing.

**NOW, THEREFORE**, pursuant to the Purchase Agreement and in consideration of the premises, and for good and valuable consideration paid by Assignee to Assignor, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Assignor hereby irrevocably sells, assigns, transfers, conveys, and sets over to Assignee, and Assignee hereby accepts, all of Assignor's entire rights, title and interest in and to:

(a) the Marks together with the goodwill of the business associated with the Marks and which are symbolized by the Marks, for the United States and for all foreign countries, including, without limitation, any registrations and applications therefor, any renewals and extensions of the registrations, and all other corresponding rights that are or may be secured under the laws of the United States or any foreign country, now or hereafter in effect, for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made;

(b) all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world;

(c) together with any and all income, royalties, fees, payments, and other proceeds now or hereafter due or payable as of the Effective Date or thereafter with respect to any and all of the foregoing; and

(d) including, without limitation, any and all claims and causes of action with respect to any of the foregoing, whether accruing before, on, or after the Effective Date, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief by reason of past, present or future infringement, dilution, misappropriation, violation, misuse, breach, default, or any other unauthorized use of the Marks, with the right but

no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages for Assignee's own use and enjoyment and for the use and enjoyment of its successors, assigns or other legal representatives.

2. Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks in the United States Patent and Trademark Office and the officials of corresponding entities or agencies in any applicable foreign countries or jurisdictions, to record and register this Assignment and Assignee as the assignee and owner of the Marks.

3. Assignor shall take all further actions, and provide to Assignee, Assignee's successors, assigns or other legal representatives, all such cooperation and assistance (including, without limitation, the execution and delivery of any and all affidavits, declarations, oaths, samples, exhibits, specimens, assignments, powers of attorney or other documentation) as may be necessary or reasonably requested by Assignee to effect, evidence, or perfect the assignment of the Marks or to more fully and effectively effectuate the purposes of this Assignment, including, without limitation, with respect to the following: (1) the preparation and prosecution of any application for registration, or any application for renewal of a registration, relating to any of the Marks or rights assigned herein; (2) the prosecution or defense of any interference, opposition, infringement or other proceedings that may arise in connection with any of the Marks or rights assigned herein, including, without limitation, testifying as to any facts relating to the Marks and this Assignment; (3) obtaining any additional trademark protection relating to rights assigned herein that Assignee may deem appropriate that may be secured under the laws now or hereafter in effect in the United States or in any foreign country; and (4) in the implementation or perfection of this Assignment in all applicable jurisdictions throughout the world.

4. Assignor covenants and agrees that it shall not in the future: (i) seek or file a request for an opposition or cancelation of any of the Marks; (ii) file any action (court, administrative, governmental, or otherwise) seeking invalidity or unenforceability of any of the Marks; (iii) otherwise affirmatively challenge the scope, validity, or enforceability of any of the Marks; (iv) in the absence of compulsory process, cooperate or assist any third party in connection with any dispute, claim, or case involving any of the Marks; or (v) provide prior art or suggest arguments to any third party for the purpose of assisting them in challenging any of the Marks.

5. This Assignment and any claim, controversy, dispute, or cause of action (whether in contract, tort, or otherwise) based upon, arising out of, or relating to this Assignment and the transactions contemplated hereby shall be governed by, construed, and enforced in accordance with the domestic laws of the same law governing the Purchase Agreement without giving effect to any choice of law or conflict of law provision or rule that would cause the application of the laws of any other jurisdiction.
