INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (the “**Agreement**”) dated as of the 21st day of October, 2022 (the “**Effective Date**”) is made by Amvic Inc. (“**Assignor**”) in favour of 1000318492 Ontario Inc. (“**Assignee**”).

WHEREAS:

A. Assignor and Assignee, among others, have entered into an asset purchase agreement dated October 21, 2022 (the “**Purchase Agreement**”);

B. Subject to the terms and conditions of the Purchase Agreement, Assignor agreed to sell, transfer, convey, assign and deliver to Assignee, and Assignee agreed to purchase, acquire and accept, all of Assignor’s right, title and interest in and to the intellectual property assets of Assignor, whether registered or not, as defined in Schedule “A” hereto (the “**Assigned Intellectual Property**”);

NOW, THEREFORE, for consideration of One Dollar (\$1.00) now paid by each party hereto to the other, and other good and sufficient consideration, including that set forth in the Purchase Agreement, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

1. Assignment. Without limiting the generality of the terms of the Purchase Agreement, Assignor does hereby sell, transfer, convey, assign and deliver unto Assignee all of Assignor’s worldwide right, title and interest in and to the Assigned Intellectual Property including any and all elements of copyright which may exist therein, together with all associated goodwill, all of the same to be held by Assignee as fully and entirely as the same could have been held and enjoyed by Assignor if this assignment had not been made, this including:

- (i) the right to oppose any application to register a trademark which may be confusingly similar to any trademarks that form part of the Assigned Intellectual Property;
- (ii) all patents, industrial designs, and applications therefor included in the Assigned Intellectual Property, including all issuances, divisionals, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations and renewals thereof;
- (iii) all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;
- (iv) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and
- (v) any and all claims and causes of action, with respect to any of the foregoing, whether accruing before, on or after the Effective Date, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Registration and Further Actions. Assignor hereby authorizes the Canadian Intellectual Property Office, the United States Patent and Trademark Office, and any other governmental officials having requisite authority and jurisdiction to record and register the assignment of the Assigned Intellectual Property upon request by Assignee. Assignor shall take such steps and actions

following the Effective Date, including the execution of any further documents, affidavits, assurances, files, registrations or other similar items, as may be reasonably requested by the Assignee to ensure that the Assigned Intellectual Property are properly assigned to Assignee.

3. Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this Agreement delivered by facsimile, e-mail or other means of electronic transmission (including by way of PDF, DocuSign or other form or manner of electronic signature) shall be deemed to have the same legal effect as delivery of an original signed copy of this Agreement.

4. Successors and Assigns. The Agreement shall be binding upon and shall enure to the benefit of the parties hereto and their respective heirs, administrators, executors, legal representatives, successors and permitted assigns.

5. Governing Law. This Agreement and any claim, controversy, dispute or cause of action (whether in contract, tort or otherwise) based upon, arising out of or relating to this Agreement and the transactions contemplated hereby shall be governed by, and construed in accordance with, the federal laws of Canada and the laws of the Province of Ontario, without giving effect to any choice or conflict of law provision or rule (whether of the Province of Ontario or any other jurisdiction).
