FIRST LIEN GRANT OF SECURITY INTEREST IN TRADEMARK

This **FIRST LIEN GRANT OF SECURITY INTEREST IN TRADEMARK** (as amended, amended and restated, supplemented or otherwise modified from time to time, the “Trademark Security Agreement”) dated October 18, 2023 is among the Persons listed on the signature pages hereof (collectively, the “Grantors”) and Wilmington Trust, National Association, as notes collateral agent (the “Notes Collateral Agent”) for the Notes Secured Parties (as defined in the Indenture referred to below).

WHEREAS, Newfold Digital Holdings Group, Inc., a Delaware corporation (the “Issuer”) and certain of its subsidiaries have entered into the Indenture (“Indenture”) dated as of October 18, 2023 by and among the Issuer, the guarantors party thereto from time to time and Wilmington Trust, National Association, as trustee, governing the Issuer’s 11.750% Senior Secured Notes due 2028 (together with any additional notes issued under the Indenture, the “Notes”) (as may be amended, restated, amended and restated, supplemented, replaced, refinanced or otherwise modified from time to time). Capitalized terms defined in the Indenture or in the Security Agreement (as defined below) and not otherwise defined herein are used herein as defined in the Indenture or the Security Agreement, as the case may be (and in the event of a conflict, the applicable definition shall be the one given to such term in the Security Agreement).

WHEREAS, pursuant to the Indenture, each Grantor has executed and delivered that certain First Lien Security Agreement, dated as of October 18, 2023 (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “Security Agreement”), among the Grantors from time to time party thereto and the Notes Collateral Agent.

WHEREAS, under the terms of the Security Agreement, the Grantors have granted to the Notes Collateral Agent, for the benefit of the Notes Secured Parties, a security interest in, among other property, certain intellectual property of the Grantors, and have agreed thereunder to execute this Trademark Security Agreement for recording with the USPTO.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

A. Grant of Security. Each Grantor, as collateral security for the prompt and complete payment and performance of the Secured Obligations of such Grantor, hereby grants to the Notes Collateral Agent (and its successors and permitted assigns), for the benefit of the Notes Secured Parties, a security interest in and to all of such Grantor’s right, title and interest in and to the following, whether now owned or hereafter acquired by the undersigned (the “Collateral”):

a. all trademark and service mark registrations and applications, including, without limitation, those set forth in Schedule A hereto (provided that no security interest shall be granted in United States intent-to-use trademark applications to the extent that, and so long as, the creation of a security interest therein or the assignment thereof would result in the loss of any material rights therein), together with the goodwill symbolized thereby (the “Trademarks”);

b. all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by

international treaties or conventions, all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto;

c. any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

d. any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral of or arising from any of the foregoing; provided that notwithstanding anything to the contrary contained in the foregoing clauses (a) through (f), the security interest created hereby shall not extend to, and the term "Collateral" shall not include, any Excluded Property.

B. Security for Obligations. The grant of a security interest in, the Collateral by each Grantor under this Trademark Security Agreement secures the payment of all Secured Obligations of such Grantor now or hereafter existing under or in respect of the Note Documents (as such Note Documents may be amended, restated, amended and restated, supplemented, replaced, refinanced or otherwise modified from time to time (including any increases of the principal amount outstanding thereunder)). Without limiting the generality of the foregoing, this Trademark Security Agreement secures, as to each Grantor, the payment of all amounts that constitute part of the Secured Obligations that would be owed by such Grantor to any Secured Party under the Note Documents but for the fact that they are unenforceable or not allowable due to the existence of a bankruptcy, or reorganization or similar proceeding involving a Loan Party.

C. Recordation. Each Grantor authorizes and requests that the Commissioner for Trademarks record this Trademark Security Agreement.

D. Execution in Counterparts; Electronic Execution. This Trademark Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. The words "execution," "execute," "signed," "signature," and words of like import in this Trademark Security Agreement or any amendment or other modification hereof shall be deemed to include electronic signatures or the keeping of records in electronic form, each of which shall be of the same legal effect, validity or enforceability as a manually executed signature or the use of a paper-based recordkeeping system, as the case may be, to the extent and as provided for in any applicable Law, including the Federal Electronic Signatures in Global and National Commerce Act, the New York State Electronic Signatures and Records Act, or any other similar state laws based on the Uniform Electronic Transactions Act.

E. Grants, Rights and Remedies. This Trademark Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Notes Collateral Agent with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. In the event of any conflict between the terms of this Trademark

Security Agreement and the terms of the Security Agreement, the terms of the Security Agreement shall govern.

F. Governing Law; Jurisdiction; Waiver of Jury Trial. Sections 13.7, 13.8 and 13.9 of the Indenture are hereby incorporated by reference, mutatis mutandis.

G. Intercreditor Agreement. Notwithstanding any provision to the contrary in this Trademark Security Agreement (but without expanding the scope of the Collateral as set forth in this Trademark Security Agreement and the Indenture), in the event of any conflict or inconsistency between the provisions of the Intercreditor Agreement (or any other intercreditor agreement entered into by the Notes Collateral Agent in accordance with Section 10.7 of the Indenture) and this Trademark Security Agreement, the provisions of the Intercreditor Agreement or such other intercreditor agreement, as applicable, shall prevail.

[SIGNATURE PAGES FOLLOW]

IN WITNESS WHEREOF, each Grantor and the Collateral Agent have caused this Trademark Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first written above.
